Auditor's Report.

To the Citizens of the Town of Saugus:

Having examined and approved the accounts of the several departments of the Town as required by the by-laws, I hereby submit the annual report and trust the citizens of the Town will give it their closest attention and acquire for themselves a good understanding of the financial condition in which we are placed, so that at the coming annual meeting all articles carrying an appropriation may be acted upon with intelligence and discretion. It will be seen that the deficiency this year has been increased to the amount of \$54,302.12. This has been brought about in large measure by the expenditure of \$50,328.84 on new school buildings and the abatement of \$4,512 assessed to the City of Lynn on their pumping station property at North Saugus. The amount of uncollected taxes is over \$9,300 less than a year ago which is certainly another step in the right direction. The liability of the Town on account of school building on the 1st of January amounted to \$126,050.00 not including accrued interest on the same.

Respectfully submitted,

GEORGE PARSONS,

Auditor.

SAUGUS, Feb. 14, 1907.

ANNUAL TOWN MEETING

Total Vote for Town Officers.

Lynnhurst	350 00
1905 Houses	2,000 00

Interest	\$10,800 00
State and Military Aid	2,750 00
Highway and Bridges	3,000 00
Fire Department	2,000 00

Voted, To take up Art. 36, yeas 119, nays 25.

The Moderator appointed the following persons to serve as tellers: Marion V. Putnam, Henry J. Mills, Clarence Oliver, Joseph S. Meacom.

ART. 36. To see if the Town will make an appropriation of five thousand dollars, in addition to the amount already appropriated for the construction of the "Pleasant Hill School House" so-called or to see what action the Town will take in the matter, agreeable to the petition of William E. Ludden and others.

Voted, To indefinitely postpone.

Voted, To take up Art. 54, yeas 158, nays 3.

ART. 54. To see if the Town will vote to authorize the Committee on new School Houses to transfer any portion of the amounts already appropriated for the construction of new School Houses from one building to another so that the total amount of said appropriation for all of the buildings now authorized to be constructed may be used and expended by said Committee on either of said buildings in such way and manner as in their judgment may be deemed necessary or expedient, or to see what action the Town will take in the matter, agreeable to the petition of William E. Ludden and others.

Voted, To indefinitely postpone.

Voted, To Take up Art. 56, yea 203, nays 2.

ART. 56. To see if the Town will vote to appoint a committee of three to consist of the following citizens: Charles W.

Deaborn, Holman K. Wheeler, Charles W. Amerige, for the express purpose of investigating the doings of the School Building Committee appointed by the Town at a special Town Meeting held June 7th, 1905, at which meeting the Town appropriated the sum of seventy-five thousand dollars (\$75,000) for the purpose of acquiring land, grading same, building three School Buildings and furnishing same ready for occupancy; said investigating Committee to have full power in the premises in pursuit of said investigating, have access to all records, bids, papers, contracts, plans and specifications, in the possession of said School Building Committee; and that Investigating Committee shall report at this or a future Town Meeting, or see what action the Town will take in the matter.

Voted, That Art. 56, be adopted and that the following persons, Charles W. Deaborn, Charles W. Amerige, and Holman K. Wheeler, be appointed to carry out the provision of said Art.

ART. 7. To see what action the Town will take in the matter of fixing the compensation of any or all Town Officers and make an appropriation for same.

Voted, That Art. 7, be voted on as a whole and that \$5,150 be and hereby is appropriated as recommended and reported by the Finance Committee as follows:

Town Clerk	\$100 00
Selectmen	350 00
Treasurer	500 00
Auditor	300 00
Overseers of the Poor	300 00
Water Commissioners	100 00
Board of Health	75 00
Chief Engineer Fire Department	100 00
Assistant Engineers Fire Department	100 00
Constable	75 00
Assessors	900 00
Secretary School Committee	50 00
Firemen 11, men to company, \$50 to each man	2,200 00

Voted, To take up Art. 43, yeas, 68; nays, 25.

ART. 43. To see if the Town will instruct the Selectmen to locate 23 incandescent lights in the following places, viz.: One at the corner of Fairmount avenue and Sherman street, one on Garfield avenue, in front of the Methodist church, one at the junction of Newcomb and Garfield avenue, one on Harrison avenue, opposite lot 158, three on Ash street, one on Myrtle street, two on Denver street, between Central and Liberty streets, three on Vermont avenue, five in Kenwood and five at North Saugus.

Voted, To refer to the Selectmen.

Motion to adjourn was not carried, yeas, 61; nays, 84.

Voted, To take up Art. 51, yeas, 77; nays, 6.

ART. 51. To see if the Town will appoint a committee to consider the advisability of purchasing a site and erecting a hose house in that part of the Town known as Clifftondale and make an appropriation for the same, or to see what action the Town will take in the matter, agreeable to the petition of C. A. Blakeley and others.

Voted, To indefinitely postpone.

Voted, To take up Art. 31, yeas, 105; nays, 2.

ART. 31. To see if the Town will make an appropriation not exceeding \$1,733.54 for the extermination of the Brown Tail and Gypsy Moth, or to see what action the Town will take in the matter, agreeable to the petition of C. F. Clark and others.

Voted, That the sum of \$1,733.54 be and hereby is appropriated for the extermination of the Brown Tail and Gypsy Moths, all moneys to be expended under the direction of the Tree Warden.

Voted, To take up Art. 40, yeas 85, nays 0.

ART. 40. To see if the Town will name the new School House at the junction of Winter and Central Streets the "Hawkes School" in honor of one of the first settlers of Saugus and of the family which has been identified longer than any other with the history of the Town or to see what action the Town will take in the matter on petition of Frank P. Bennett.

Voted, To name the new School Building at the junction of Winter and Central Streets, the "Saugus High School."

Voted, at 11.20 P. M., to adjourn to Monday evening, March 19, 1906, at 8 o'clock P. M.

Attest. A true copy :

HENRY A. PARKER,
Town Clerk.

Adjourned Town Meeting.

Monday evening, March 19, 1906.

Meeting called to order by the Moderator, at 8 o'clock P. M.

Records of last meeting were read and approved.

ART. 8. To see if the Town will authorize the Treasurer, with the approval of the Selectmen, to hire money and give notes of the Town for the same for the following purposes :

1st. For the purpose of paying notes coming due the present year.

2nd. To hire money temporarily, not exceeding seventy-five thousand dollars (\$75,000) for one year, in anticipation of the taxes of the year 1906.

Voted, That the Town Treasurer with the approval of the Selectmen be and hereby is authorized to hire money temporarily not exceeding one year in anticipation of the taxes of the year 1906, and give notes of the Town for the same, and that all money so hired shall be expressly made payable from such taxes of 1906. The whole amount so hired under this vote not to exceed the sum of \$75,000. Yea 68; nay, 1.

Voted, To take up Art. 20. Yea 44; nay 5.

ART. 20. To see what compensation the Town will give the Collector for collecting the tax of 1906 or to see what action the Town will take in the matter.

Voted, That if less than 75 per cent of the Taxes of 1906, are collected before May 1, 1907, the commission be 1 per cent. If 75 per cent or over are collected before May 1, 1907, the commission be $1\frac{1}{2}$ per cent.

ART. 9. To see if the Town will appropriate the sum of forty-five hundred dollars (\$4,500) for Police Service.

Voted, That the sum of \$4,250, be and hereby is appropriated for Police Department.

Voted, To take up Art. 37, yea 37; nays 0.

ART. 37. To see if the Town will vote to place a Fire Alarm Box on Denver street, near the railroad crossing and make an appropriation for the same, or to see what action the Town will take in the matter agreeable to the petition of Charles A. Blakeley and others.

Voted, To indefinitely postpone.

ART. 10. To see if the Town will appropriate the sum of two hundred and fifty dollars (\$250) for the observance of Memorial Day, the same to be expended under the supervision of Post 95, G. A. R., or to see what action the Town will take in the matter.

Voted, That the sum of \$250 be and hereby is appropriated for the observance of Memorial Day, the same to be expended under the supervision of Gen. E. W. Hinks, Post 95, G. A. R.

ART. 11. To see what action the Town will take in relation to Street Lighting, and make an appropriation therefor.

Voted, That the sum of \$6,550 be and hereby is appropriated for Street Lighting.

Voted, To take up Art. 50, yea 77; nays 41.

ART. 50. To see if the Town will accept the street known as Adams avenue, from the Boston and Maine Railroad property at Pleasant Hill station to Vine street, as per plan and specification filed with the Town Clerk, or to see what action the Town will take in the matter, agreeable to the petition of Charles J. Smith and others.

Voted, To lay on the table.

ART. 12. To see if the Town will appropriate the sum of sixteen hundred and ninety dollars (\$1,690) to cover the cost of insurance on Town Buildings.

Voted, That the sum of one thousand six hundred and ninety dollars (\$1,690.00) be and hereby is appropriated for Insurance.

Voted, To take up Art. 38, yea 39, nays 5.

ART. 38. To see if the Town will vote to make a Water Loan of not exceeding two thousand five hundred dollars (\$2,500.00) for laying of pipe on Bristow street, or to see what action the Town will take in the matter agreeable to the petition of Charles E. Welt and others.

Voted, To indefinitely postpone.

Voted, To take up Art. 52. Yeas, 124; nays, 0.

ART. 52. To see if the Town will vote to make a settlement with George Sewell for injuries received while working in the gravel pit for the Town of Saugus and make an appropriation for the purpose, or to see what action the Town will take in the matter agreeable to the petition of Frank P. Bennett and others.

And you are hereby directed to serve this Warrant by posting attested copies at the usual places seven days at least before the time of holding said Meeting and to distribute copies as provided by the By-Laws at least four days before.

Hereof fail not and make due return of this Warrant with your doings thereon to the Town Clerk at the time and place of meeting.

Given under our hand and Town Seal this Second Day of April, A. D. 1906.

HERBERT M. FORRISTALL,
CLARENCE W. FOX,
CHARLES F. CLARK,

Board of Selectmen.

A true copy. Attest.

HENRY A. PARKER,
Town Clerk.

ESSEX SS.

SAUGUS, April 12, 1906.

Commonwealth of Massachusetts:

Pursuant hereunto I have served this Warrant as within directed.

CHARLES A. BLAKELEY,
Constable.

THURSDAY, April 12, 1906.

The meeting was called to order by the Town Clerk Henry A. Parker, at 8 o'clock P. M. and after the reading of the Warrant by the Town Clerk, Art. 1, was taken up.

ART. 1. To choose a Moderator to preside at said meeting : Chose Thomas P. Parsons, Moderator who after being duly qualified by the Town Clerk, took charge of the meeting.

ART. 2. To hear and act on reports of Committees.

A partial report was read by Investigating Committee on School-Houses under construction.

ART. 3. To see if the Town will vote to accept and adopt the partial report of the Committee appointed at the adjourned Annual Meeting held March 12, 1906 to investigate the doings of the Building Committee appointed at a Town Meeting held June 7, 1905, and to take any action concerning said report and the construction and furnishing of the three school-houses referred to in said vote which the interest of the Town may require.

Voted, To accept.

Voted, That we take up Art. 5, yeas 117, nays 2.

ART. 5. To see if the Town will take action as to the powers, duties, and acts, of said building committee appointed June 7, 1905, and to pass any vote in the premises which the interest of the Town may require.

Voted, Not to discharge the building committee, yeas 69, nays 115.

ART. 4. To see if the Town will authorize and instruct said investigating committee to enter upon an examination of the mode of construction of and quality of labor and material in said building, or either of them and to obtain and keep possession so far it may be necessary for the use of the said committee to all

plans, specifications, vouchers papers and writings of every description to which the Town is entitled appertaining to the construction of either of said buildings or any expenditures under the appropriation made for the construction of the same, or to take such other action concerning the subject of this article as the voters may deem expedient.

Voted, That the Town authorize and instruct said investigating committee to enter upon an examination of the mode of construction of and quality of labor and material in said building or either of them and to obtain possession so far as it may be necessary for the use of said committee of all plans, specifications, vouchers, papers, and writings of every description to which the Town is entitled, appertaining to the construction of either of said buildings, or any expenditures under the appropriation made for the construction of the same.

ART. 6. To see if the Town will instruct the investigating committee appointed March 12, 1906, to continue its investigations and to pass any other vote concerning the powers and duties of said investigating committee which the interest of the Town may require.

Voted, That the Town instruct the investigating committee appointed March 12, 1906, to continue its investigations.

Voted, To adjourn sine die, at 10.55 P. M.

A true copy. Attest.

HENRY A. PARKER,
Town Clerk.

SPECIAL TOWN MEETING.

ESSEX, SS.

To Charles A. Blakeley, Constable of the Town of Saugus,

GREETING :

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the Town of Saugus qualified to vote in Town affairs to meet at the Town Hall, on Tuesday evening, December eighteenth, A. D. 1906, at eight o'clock to hear and act on the following articles, viz. :

And you are hereby directed to serve this Warrant by posting attested copies at the usual places seven days at least before the time of holding said meeting, and to distribute copies as provided by the By-Laws at least four days before.

HEREOF fail not and make due return of this Warrant with your doings thereon to the Town Clerk, at the time and place of meeting.

Given under our hands and Town Seal this twenty-seventh day of November, A. D., 1906.

HERBERT M. FORRISTALL,
CLARENCE W. FOX,
CHARLES F. CLARK.

Board of Selectmen.

ESSEX SS.

COMMONWEALTH OF MASSACHUSETTS.

SAUGUS, December 18, 1906.

Pursuant hereunto I have served this Warrant as within directed.

CHARLES A. BLAKELEY,

Constable.

TUESDAY, December 18, 1906.

The meeting was called to order by the Town Clerk Henry A. Parker, at eight o'clock P. M., and after the reading of the Warrant by the Town Clerk, Art. 1 was taken up.

ART. 1. To choose a Moderator to preside at said meeting. Chose, Thomas P. Parsons, who after being duly qualified by the Town Clerk took charge of the meeting.

ART. 2. To hear and act on Reports of Committees.

Final report of the Investigating Committee of the doings of the Committee on new school-houses was read and accepted.

Report of the Finance Committee accepted.

The following gentlemen were appointed Tellers by the Moderator, Herbert M. Forristall, H. A. B. Peckham, E. K. Hayden, C. W. Pratt.

ART. 3. To see if the Town will vote to raise and appropriate a sum not exceeding four thousand dollars, said sum to be used, in addition to the amount already appropriated by the Town, for the purpose of constructing the High School building, and Grammar School building; also for the carrying out of the foregoing, to authorize the Treasurer to issue, under authority of Chapter 297 of the Acts of the Legislature of Massachusetts for 1905, bonds of the Town therefor. Said sum so appropriated to be used for the payment of the bills for the completion of the High School and Grammar School; or to see what action the Town will take in the matter, agreeable to the petition of William E. Ludden and others.

Voted, That so much of said vote of June 7, 1905, as relates to the building of said school building at Pleasant Hills be and is hereby rescinded, and that the building of said Pleasant Hills school-house be and is hereby indefinitely postponed; and that the Selectmen be and are hereby authorized to use and expend said sum of \$2,000 or so much thereof as may be needed or

required, to finish and complete the High School and Grammar School buildings recently erected by said Committee.

ART. 4. To see if the Town will vote to authorize the Committee on new School Houses to use and expend such sum or sums of money as have been appropriated by said Town, for the construction of new school-houses, in such way and manner as in the judgment of said committee may be deemed necessary and expedient; or to see what action the Town will take in the matter, agreeable to the petition of William E. Ludden and others.

Voted, To indefinitely postpone.

ART. 5. To see if the Town will vote to raise and appropriate the sum of six thousand dollars, said sum to be used, in addition to the amount already appropriated by said Town for the purpose of constructing a school building at Pleasant Hills; also for the carrying out of the foregoing, to authorize the Treasurer to issue under authority of Chapter 297 of the Acts of the Legislature of Massachusetts for 1905, bonds of the Town therefor; or to see what action the Town will take in the matter, agreeable to the petition of Benjamin F. Robinson and others.

Voted, To indefinitely postpone.

ART. 6. To see if the Town will vote to lay water pipes on Eaton Avenue, Clayton Avenue and Addison Avenue, and make an appropriation therefor, or to see what action the Town will take in the matter, agreeable to the petition of James Deary and others.

Voted, to indefinitely postpone.

ART. 7. To see if the Town will appropriate the sum of \$1,300 for the purpose of providing for the exemption from taxation of Veterans of the Civil War and their Widows under Chapter 315, Sections 1 and 2 of the Acts of Legislature, passed April 24, 1906, or to see what action the Town will take in the matter.

Voted, To indefinitely postpone.

ART. 8. To see if the Town will appropriate the sum of \$150 for the purpose of searching the Records and making Plans for the Assessors, agreeable to the petition of Charles W. Amerige and others.

Voted, That the sum of \$150 be and is hereby appropriated as called for under Article 8.

ART. 9. To see if the Town will appropriate the sum of \$150 to defray the expenses of the Committee appointed to investigate the doings of the School Building Committee, or to see what action the Town will take in the matter, agreeable to the petition of Charles W. Dearborn and others.

Voted, That the sum of \$150 be and hereby is appropriated as called for under Article 9.

ART. 10. To see if the Town will instruct the Selectmen to install gas fixtures in the Town Hall, and make an appropriation for the same, or to see what action the Town will take in the matter, agreeable to the petition of Henry A. Parker, and others.

Voted, To indefinitely postpone.

ART. 11. To see if the Town will instruct the Selectmen to fit up the northern part of the court room for Offices for Town Officers, and make an appropriation for the same, or see what action the Town will take in the matter, agreeable to the petition of William E. Ludden and others.

Voted, To indefinitely postpone.

Voted, To dissolve the meeting, 9.50 o'clock P. M.

A true copy. Attest.

HENRY A. PARKER,
Town Clerk.

Town Clerk's Report.

Remarks.

The Finance Committee believe that it should be borne in mind that true economy for the Town's welfare and prosperity, as also for the individual, requires that no money should be appropriated, except wherein is actually necessary, and each and every department should see to it that department expenses do not over-run the appropriations made by the Town.

Your Finance Committee feel in making their recommendations, that they should only consider the requirements for the ensuing year, and any departments over-running their appropriations of the past year should ask their remuneration by having an article in the Town Warrant for that purpose. This, we believe should be rigidly enforced.

As members of the Committee we are here to do our duty faithfully, as we see it, and with no other obligations than to act with intelligence and honesty, and what we believe to be for the best interest of the Town. These interests touch every citizen.

Excessive appropriations mean nothing else than high taxes, with these conditions the opportunities for development, either for mercantile, manufacturing, or residential purposes are retarded, and it is the duty of the citizens to keep all appropriations down to the lowest point consistent with the Town needs and condition.

Our liabilities are much larger than are warranted by our resources, certain fixed charges have very materially increased during the last few years, namely schools and interest, and it is very clear to your Committee that stringent measures should be used to keep all appropriations down to a reasonable amount.

An extravagant administration of municipal affairs or one without proper consideration for the future, can easily retard the prosperity of Saugus for years to come.

We are at a critical time in the history of our Town, and it is absolutely essential, at the present time, for the installation of economies with a single desire to promote the interests of the people.

We express regret at the loss of the Committee and the Town in the death of Mr. Benjamin F. Sanborn a member of the Finance Committee. The vacancy was filled by Mr. Edgar E. Chapman.

For the Committee,

E. B. OLIVER, *Chairman.*

F. C. CHEEVER, *Secretary.*

REPORT OF COMMITTEE

FOR

Building New School Houses.

The Committee appointed at the Special Town Meeting, held June 7th, 1905, to build three school buildings, to consist of a High School at Saugus Centre, a four room school building between East Saugus and Cliftdale, and a two room building at Pleasant Hills, beg leave to make the following report :

The Committee was organized July 8th, 1905, with William E. Ludden, Chairman, and Henry F. Fiske, Secretary. The first work the Committee performed was in the purchase of land for the three school buildings.

The Committee purchased a lot on Adams avenue for the two room building, Pleasant Hills, for seven hundred dollars of N. J. Wales. There were several other lots under consideration by the Committee, but upon investigation the Committee were of the unanimous opinion that the Wales lot was a more desirable location than any other lot that could be purchased.

The Committee purchased a lot for the four room wooden building, between East Saugus and Cliftdale, of George A. Valpey, for the sum of two thousand dollars, containing about 26,895 square feet. The Committee had viewed all of the locations between East Saugus and Cliftdale that were available for school purposes, and were of the unanimous opinion that the Valpey lot was a more desirable location than any other lot that could be purchased.

The Committee viewed several lots for the location for the High School, and it was finally determined by the Committee

that an option be secured on the lot owned by Byron S. Hone, on Central street, opposite Adams avenue; and the Secretary of the Committee, Mr. Fiske, was appointed a Committee of one to procure said option. At a meeting of the Committee, held July 12th, 1905, Mr. Fiske reported verbally to the members of the Committee that Mr. Hone's price was one thousand dollars per acre for the land fronting on Central street, provided the Town would build a street on the Northerly side of the lot, Mr. Hone to make no charge for the land taken for the street, and that he would send the Committee an option the following day.

The following day the Secretary of the Committee received a letter from Mr. Hone, stating that his agent had given an option on 41,000 feet of the land for \$1,300. This option happened to be on the same land that the Committee had under consideration for purchase, and Mr. Fiske was appointed a Committee to see Mr. Hone's agent, and, if possible, procure an option on the land. He procured and submitted to the Committee an option of one, William J. Cochrane of Stoneham, whereby the Town was to pay 7 cents per square foot, or \$3,049.20 per acre.

The Committee also had under consideration the purchase of the Wilson lot, so called, at the junction of Central and Winter streets. The Secretary, Mr. Fiske, was appointed a committee to employ a surveyor to estimate the cost of grading the Hone and Wilson lots, at a meeting held July 14, 1905.

The Committee received a communication from Charles G. Woodbridge, agent of the owner of the Wilson land, so called, offering to sell the lot, or any part thereof, for the assessed valuation.

Mr. Fiske reported verbally to the Committee that he had various estimates of the expense of grading the Hone lot, of from \$1,200 to \$2,400, and the Wilson lot for placing a drain pipe along the Westerly side of said lot, and grading the same, for from \$1,500 to \$1,600.

On July 18th, 1905, the Committee voted to purchase the land at the junction of Central and Winter streets, the Wilson lot, so called, for its assessed valuation. Messrs Fiske and Caswell of the Committee voted in the negative.

The Committee met on July 29th, 1905, and proceeded to choose architects for the three buildings. After considerable discussion Mr. Caswell moved that the Committee eliminate all competition, and ballot for an architect, and Messrs. Prescott & Sidebottom were elected. Mr. Caswell then tendered his resignation as a member of the Committee, and Mr. Fiske then tendered his resignation as a member of the Committee, and Benjamin F. Robinson was elected Secretary, to fill the vacancy caused by the resignation of Mr. Fiske.

It was determined by the Committee, after a survey was made of the Wilson lot, that one acre would not be enough for the High School lot, and the Committee voted to purchase 50,455 feet at its assessed valuation.

On August 2nd, 1905, a Bill in Equity was filed in the Superior Court for Essex County, containing, among other things, in the allegations, the records of the Committee, and asking that an injunction issue restraining the remaining members of the Committee from purchasing the Wilson lot, so called, or making any contract with the architects that had been employed. The Committee did not take any other action until after the Special Town Meeting, held August 15th, 1905, which meeting voted to indefinitely postpone the article to see if the Town would vote to discharge this Committee, an agreement at that time being offered to dismiss all court proceedings.

The Committee purchased 50,455 feet at the junction of Central and Winter streets, at its assessed valuation, for the sum of \$3,606.15.

East Saugus School.

The Committee sold, at public auction, the house on the Valpey lot, for the sum of \$25.

The architects submitted a plan for a four room building of 71½ feet by 45½ feet, and advertised for bids for the construction of the building. The Committee received three bids, as follows:

Ernest L. Noera	.	.	.	\$13,950 00
Dimmock & Patten	.	.	.	12,984 00
W. George Greenlay	.	.	.	12,640 00

The contract for this building was awarded to Mr. Greenlay, under date of Sept. 29, 1905.

Mr. Levi G. Hawkes made a survey of the lot before any blasting was done, and the committee allowed the Contractor \$3.00 per cubic yard for blasting 535 cubic yards, amounting to \$1,605.

The Committee, after investigation of various systems of plumbing and sanitary apparatus, accepted the bid of the Fuller & Warren Company for the sum of \$350.

The Committee received bids for the heating and ventilation of this school building from the Fuller & Warren Company of \$1,800, Walker Pratt Company \$1,384, and the Smith & Anthony Company of \$1,247. The contract for the heating and ventilation of this building was awarded to the Smith & Anthony Company.

The Committee employed W. George Greenlay to construct a retaining wall on the front side of this lot, for \$150.00, and Benjamin F. Robinson to grade the same, for \$575.00.

Pleasant Hills School.

The Committee have had the trees removed, and the lot graded, necessary before excavations are made for a cellar, by B. F. Robinson, at an expense of \$146.28. Not being able to contract for a suitable two room school building, for the appropriation available for this building, the Committee, after having plans submitted to various contractors for estimates, have not awarded any contract for this building.

High School.

The Committee received bids for the construction of a stone drain on the Westerly side of the High School lot, along the line of Central street, and grading around the drain from :

David J. Shehan	\$1,895 00
Elmer B. Newhall	1,500 00
Monteith & Meister	1,350 00
Lewis B. Austin	1,345 00
Richard Philpott	1,350 00

Mr. Fiske of the Committee requested that the bids be revised, and to substitute a 24-inch vitrified standard sewer pipe in place of the stone drain. The bidders revised their bids, and the contract was awarded to Monteith & Meister, the lowest bidders for the same, for \$1,475, a survey of the lot having been previously made by Mr. Levi G. Hawkes, and the grade established.

The Committee met with the School Committee, and Superintendent of Schools, and after examining various High Schools in other cities and towns in this Commonwealth, approved plans as submitted by the Architects, which conform to the requests of the School Committee. The size of this building is 128 feet 8 inches by 64 feet 8 inches—8 rooms, 2 laboratories, and an assembly hall of about 400 capacity.

The Committee, having advertised for bids for the construction of the building, including plumbing and sanitary apparatus, and a telephone system, awarded the contract to W. George Greenlay for \$33,337. The Committee received other bids, as follows :

J. E. Locatelli	\$31,681 00
F. C. Fuller & Co.	35,000 00
Marr Brothers	33,400 00
F. C. Alexander	32,990 00
Coburn & Broughton	33,888 00
E. T. Reynolds	32,750 00
Hapgood, Frost & Co.	34,443 00
Contractors & Builders Co.	35,909 00
William Crane	40,760 00

Mr. Greenlay, not being the lowest bidder, the contract was awarded to him upon his written statement that he would, so far as practicable, purchase Saugus material, and employ Saugus labor in the construction of this building.

The Committee received bids for the heating by steam, and ventilating of this building from :

Decreau & Pitman	\$5,842 00
Smith & Anthony Co. . . .	4,250 00
Issac Coffin Co.	4,286 00
Fuller & Warren Co. . . .	5,245 00
Walter B. Ross	4,148 00

and from the Smith & Anthony Company of a combination of hot air and steam for \$3,597 and from the Fuller & Warren Company for combination hot air and steam \$4,228. The Committee, having examined quite a number of heating systems now in use in buildings of a similar size, determined to adopt the Fuller & Warren combination system, and the contract was awarded to them, for the sum of \$4,228.

All of the contracts for heating and ventilating, and the construction of the two buildings now under process of erection, are guaranteed by bonds, which have been approved by the Committee. The Committee have placed insurance on two buildings in three of the agencies in Saugus.

The loam having been removed and stacked on the high school lot, at an expense of \$175.00, Mr. Levi G. Hawkes has made a survey and plan of the same, and established the grade.

The above is a complete report of the work done by your Committee, and the money expended, or contracts made, with the exception of the few items as shown in the Annual Report, for surveying, advertising, expense of examining titles, and incidental expenses.

WILLIAM E. LUDDEN,
BENJAMIN F. ROBINSON,
JOHN S. SMITH.

SAUGUS, Mass., March 12th, 1906.

Report of Investigating Committee on New School Houses.

Your Committee, consisting of H. K. Wheeler, C. W. Amerige and C. W. Dearborn, appointed at the annual Town Meeting, March 12, 1906, to investigate the doings of the School Building Committee appointed by the Town at special Town Meeting, held June 7, 1905, met March 14, 1906, at the Assessors' office, Town building, and organized as follows: H. K. Wheeler was chosen Chairman and C. W. Dearborn, Secretary of Committee, and after being duly sworn by Town Clerk, proceeded to business and they herewith submit the following partial report:

Your Committee has held several meetings and summoned in witnesses and have received all available testimony from those connected and familiar in any way with this matter, which has been offered or furnished; most of the testimony being given under oath and a brief statement of the more important part of the evidence is herewith incorporated.

Grammar School.

Your Committee find that \$20,000 was appropriated to purchase land, build and furnish complete a grammar school building on Lincoln avenue. In regard to the purchase of land we find that there was \$25 that had not been accounted for, but since attention has been called to the fact by your Committee, it has been turned into the Town Treasury and the Town now has a title deed to the land. Upon the evidence before this Committee, they are of the opinion that the work cannot be completed within or according to the terms of the appropriation;

that the Building Committee allowed contractor without any competition whatever the sum of \$1,605, for blasting 535 cubic yards of ledge for which, he, the contractor, paid only \$485, making a profit of \$1,120.

Evidence (1.)

From the report of the Building Committee made to the Town of Saugus, March 12, 1906, it appears (page 4) that the Committee allowed the contractor \$3 per cubic yard for blasting 535 cubic yards, amounting to \$1,605 on the East Saugus School-house lot.

It appears from statements made to your Committee by F. D. Mayo and written communication from him that he "did the drilling and blasting of ledge on school house lot, Lincoln ave., Saugus, for the sum of \$485." Mr. Caswell, a member of the Building Committee testified that the contract was let out at an enormous price. It appears from the testimony of Mr. Prescott, one of the architects, that the contract for drilling and blasting was given to the contractor without being submitted to others to bid upon. There is also the testimony of Mr. Ludden, the Chairman of the Building Committee, to the same effect.

The stone was removed and used in grading up the lot by one Robinson, a member of your Building Committee, at a cost to the Town of about \$675 for grading and filling, which in the judgment of your Committee and from the evidence submitted is an unreasonably high price, taking into consideration the fact that had there been no ledge, contractor would have had to remove a considerable amount of earth under his contract, for which we find no allowance has been made, and the Town in the judgment of your Committee seems to be a loser to a considerable extent by this transaction. And your Committee believe there should have been competition on this work if the best interests of the Town had been considered.

Evidence (2.)

It appears from the report of the Building Committee (page 4) that the contract to grade the lot of the East Saugus school

was let to Benj. F. Robinson for \$575. Maurice Cunningham testified that he was acquainted with this lot, that he had had a good many jobs of grading done and that three hundred dollars would have been a good price for all grading done on this lot.

Height of Rooms.

Your Committee find that this building is designed for a grammar school and that the height of the stories in the clear are but eleven feet, which is at least one foot lower than the regular height for the primary grades and two feet lower than the grammar school on Essex street in Clifftondale, and your Committee is satisfied that on dark and cloudy days, at least one half of the pupils in each room will suffer severely for want of light. This serious defect cannot be removed without a great cost to the Town. The State Board of Education and School Board of Boston, as well as other cities, recommend a stud not less than thirteen feet for rooms of this size in grammar grades.

Evidence (3.)

The plans exhibited to your Committee call for a 11 feet stud. It appeared from the testimony of Mr. Robinson, one of the Building Committee that he "thought the stud was 12 feet, the same as any ordinary school-room."

Mr. Sidebottom, one of the architects, testified that the rooms were built 11 feet stud, according to the plans.

High School.

Your Committee also find that the Building Committee was authorized to erect complete and furnish a brick High School building, including land for the same, not to exceed \$50,000; that the said Committee had under consideration a lot of land on Central street known as the Hone lot; that they secured a verbal option of the same for a certain price; that they were to receive a written option on the following day and later learned that the option had been given to some one other than the Town and upon further enquiry learned that the price had been consider-

ably advanced and the Committee deemed it advisable to purchase other land which they did at the corner of Central and Winter streets upon which the building is now being erected.

Architects.

The Building Committee proceeded to select Prescott and Sidebottom as architects for these buildings. Thereupon Fisk and Caswell were so much dissatisfied that they immediately resigned as members of the Committee and have refused to act as such up to the present time. Therefore the Town instead of the services of five men chosen have but the services of three men.

Evidence (4.)

Mr. Caswell, a member of the Building Committee testified that at the meeting of the Committee, when the question of employing architects came up and the name of the firm of Prescott and Sidebottom was mentioned, that he told the Committee that he would turn in his resignation if they were employed, giving as a reason why they should not be employed "that the Town wouldn't want Prescott and Sidebottom, as they had had them before and were dissatisfied with them." It appears that Mr. Caswell immediately resigned.

Mr. Caswell also testified that Robinson told him that he did not want one Taylor to be the architect as there would no money in it. Mr. Caswell also testified that he had seen Smith a member of the Building Committee with Robinson five or six times and that Smith was intoxicated and incapable of doing business, and that Robinson had offered him and Smith intoxicating liquors.

Mr. Fiske, a member of the Building Committee said he resigned because he was opposed to Prescott and Sidebottom; that he did not think them safe men to have the contracts for three schools after the experience the Town had had with them on the Felton street school; that Prescott and Sidebottom were chosen architects upon the votes of Ludden, Robinson and Smith, and it seemed to him to be a put up job to give the work to them.

It appeared in the testimony of Mr. Fiske and Mr. Caswell that at the meeting of the Building Committee when the vote for architects came up that Mr. Smith who had twice voted for architects other than Prescott and Sidebottom enquired, "how many times shall I vote this way?" and afterwards voted with Mr. Ludden and Mr. Robinson for Prescott and Sidebottom. Mr. Smith denied ever making any such remark at said meeting and denied ever having any talk with any of the Committee in regard to architects before the meeting.

Bids.

The architects having been selected, the Committee proceeded to adopt plans and award contracts.

They inserted in several newspapers advertisements for bids and Chairman Ludden also wrote personal invitations to one or more contractors, in answer to which he received one or more bids which were less than the ones for which the contract was awarded. It is claimed by one or more of the bidders that the action of the Committee in rejecting the lowest bid was unlawful and subjects the Town to liability to pay damage. The Building Committee received figures from a reliable contractor for the sum of \$3,656 less than Mr. Greenlay's first figure, but the Building Committee allowed Mr. Greenlay to reduce his figures \$2,000 after the bids had been opened, and then awarded the contract to him for \$587 more than Mr. E. T. Reynolds' figure and \$1,656 more than J. E. Locatilli's figure; and the reason the Committee give for this transaction is that Mr. Greenlay agreed with the Building Committee that he would, so far as was practicable, purchase Saugus material and employ Saugus labor in construction of building, and your Committee find Locatilli and Reynolds would have been glad to have agreed to the same conditions had they been asked. Mr. Greenlay has been requested to give testimony before your Committee, which request he has ignored.

Evidence (5.)

It appears from the report of the Building Committee to the Town made March 12, 1906, that the Committee advertised for

bids and awarded the contract to W. George Greenlay for \$33,337 although there were three other contractors whose bids were lower than the bid of Mr. Greenlay's. J. E. Locatilli's bid was \$1,656 lower; E. T. Reynolds, \$587 lower and F. C. Alexander's \$347 lower. It also appeared that the Chairman of the Building Committee had sent personal letters to certain contractors inviting them to procure plans of the architects. Mr. E. T. Reynolds testified to receiving such a letter. The reason stated by the Building Committee for awarding the contract to Greenlay was that because he had made a statement that so far as practicable, he would purchase Saugus material and employ Saugus labor in the construction of said building. Mr. Reynolds was a contractor living in Lynn and it appears he would have been glad to comply with the Committee's request to employ Saugus labor and purchase Saugus materials, had he been so requested. Mr. Reynolds testified that Mr. Ludden said the Committee wished to give the contract to a Saugus contractor, but they had to have competition and that was the reason of his being invited to put in a bid. Mr. Reynolds is a responsible contractor and competent to perform work of the character required by the plans and specifications.

Mr. Reynolds testified he intended to collect pay of the Town for the time he had spent upon the matter.

Mr. Prescott, one of the architects testified that he knew the firm of J. E. Locatilli and that they were a fairly reliable firm.

Mr. J. E. Locatilli testified that his place of business was in Boston and he had built a good many large buildings including school houses, and he understood that he was the lowest bidder on the Saugus School House. He testified that he saw Judge Ludden about putting in a bid and later got a letter from him; and was present at the architect's office when the bids were opened; that he would have been glad of the contract at his figures of \$31,680 and would have given the Committee a written statement to use Saugus materials and employ Saugus labor so far as practicable; and that any builder would have done so. He testified that Judge Ludden said the lowest bidder would get the job. He said he was in favor of him but three

of the Committee were not in favor of him; that one of the architects mentioned his bid and said "throw it in the waste basket." That Greenlay's bid when opened was \$35,357.

Mr. Smith, a member of the Building Committee, said he was present when the bids on the High School were opened; that the Committee did not consider Locatilli's bid at all. They did not consider it necessary, that they thought he was not responsible after talking it over among themselves because he was so much lower than the others; that the Committee did not make any talk over Reynolds of Lynn; that he did not know that Greenlay took \$2,000 off his bid. He thought that Greenlay was the lowest man.

Heating and Ventilation.

The Building Committee then proceeded to procure figures for the heating and ventilating of the High School building. They received several figures from contractors for heating and ventilating the building by steam also for heating and ventilating by combination of hot air and steam. They then proceeded and did award contract for heating and ventilating to Fuller and Warren Company for the sum of \$4,228, which was \$631 higher than Smith and Anthony for the same combination and \$80 higher than the lowest figure that they received for steam heating apparatus; notwithstanding, the architects recommended and insisted that the steam heating apparatus in their judgment was the better of the two.

Your Committee believe that a steam heating plant as first laid out by the architects would have been the proper system to have used in this building, and the change in flues would have been avoided, and that the Town has suffered a loss thereby in the installation and in the annual maintenance of the same.

Evidence (6.)

It appears by the report of the Building Committee (page 5) that the combination of hot air and steam for the High School Building was let to the Fuller and Warren Company, although the bid was \$631 higher than the bid of Smith and Anthony

Company for the same combination and \$80 higher than the lowest bid for steam heating apparatus. No reason appears in said report for awarding the bid to the Fuller and Warren Company.

Mr. Robinson testified that Fuller and Warren Company were considerably higher than Smith and Anthony, but that he had examined the two systems and thought there was much to say in favor of the Fuller and Warren system over that of the Smith and Anthony system; that the cost of attending the Smith and Anthony system was largely in excess of the Fuller and Warren system; that he considered a combination heater better than a steam one.

Mr. Prescott, one of the architects, testified that the change from steam to hot air was made by the Committee. The plans were laid out for steam; that he was not an advocate of hot air but he had never seen a plant put in by Fuller & Warren, that did not do its work; that he had always advised steam for larger buildings but they had fought the Committee on a six-room building unsuccessfully and he would not say that they had not fought the Committee unsuccessfully on this building.

Height of Rooms.

Your Committee find that the same conditions exist in the High School building in the height of stories, the class rooms on first and second stories being only 11 feet and only 9 feet in height on the third floor. They also find from the plans shown at the Assessors' Rooms and the evidence given that the brick walls of this building the entire height above basement are only three courses of bricks in thickness with an air space of 1 inch between the inner and outer courses which your Committee believe to be much too light for a building of this size, considering that in the construction of this wall, the floor timbers are practically carried on a wall 4 inches thick, and there is a very heavy roof and large Assembly Hall on third floor in which there is liable to be dancing and a large number of people assembled. Your Committee find that the walls should not be less than 16 inches thick the entire height.

The Building Ordinances of Boston, Lynn and other cities would not permit of any such construction as has been adopted in this building.

Your Committee has talked with several reliable builders and inspectors and they all agree that the walls are too light for a building of this size and height.

Your Committee find that your present High School building which is only two stories high in construction has a wall 16 inches and 20 inches thick and class rooms, 12 feet high.

The Felton Grammar School was built from plans of Prescott and Sidebottom, have class rooms, 12 feet high.

Evidence (7.)

Mr. Robinson testified that the walls of the High School building were 12 inches thick the entire height. It also appears from the plans that the walls are of the thickness just stated.

Drain and Filling.

Your Building Committee advertised for bids for laying a stone culvert 300 or more feet in length on the High School lot, and they received several figures for the same in which L. B. Austin & Co. appeared to be the lowest bidders being \$1,345. It appeared that Mr. Fisk of the Building Committee requested that bids be revised and to substitute a 24 inch sewer pipe in place of a stone culvert which was done. The contract was awarded to Monteith and Meister for the sum of \$1,475, which is \$130 more than the stone drain, and from the evidence that your Investigating Committee has obtained, the earthen drain should have cost less than the stone drain according to the testimony of several witnesses, and your Committee concur in that opinion.

It also appears to your Committee that while the contract was awarded to Monteith & Meister that Mr. Robinson, one of the Building Committee, bought the pipe of the Portland Stoneware Company for about 87½ cents per foot, delivered in Saugus; that said Robinson had much, if not all, to do with the laying of

the same; that all the checks made payable to Monteith & Meister, with the exception of one, were endorsed over to said Robinson; that it further appears from testimony of Mr. Smith, one of the Building Committee, that he supposed said Robinson was doing the work; that he, Smith, went to Boston with Robinson when he bought the pipe. It appears that this contract for laying the pipe included filling in around and grading up the same, but part of this work was done by Mr. Robinson; that he Robinson, got some 200 loads of said filling from the Pleasant Hills lot and for which the said Robinson charged the sum of \$107.28. The filling around pipe, your Committee believe was included in the Monteith & Meister contract and that the Town should not pay on both ends of this transaction. Your Committee has requested Mr. Monteith to appear before it and give testimony, which request he has not complied with.

Evidence (8.)

It appears from the testimony of Mr. Fiske of the Building Committee that he was present when the bids were received and considered for building the culvert and grading the Wilson lot; that there were several bidders among whom were Monteith and Meister and L. J. Austin, the last named being the lowest bidder. The bids covered the building of a stone culvert some three hundred feet and filling and grading up to average level on lot; that witness objected to stone culvert and suggested a twenty-four inch tile and a majority of Committee wanted tile pipe. Mr. Robinson thought it would cost \$125 more than stone. He thought the pipe would cost \$1.60 per foot. A vote was taken in favor of the tile. Mr. Robinson was appointed to get revised bids and he reported it would cost \$125 more to have tile than to have stone and the contract was awarded to Monteith and Meister. Witness endeavored to get the Committee to delay action as he believed he could get a lower price from them, as witness had obtained a price of 87 $\frac{1}{4}$ cents per foot from the Portland Stoneware Co., and had informed Mr. Monteith that he would have to revise his bid to meet these figures and he agreed to do this. This would save the Town some \$212. Mr. Mon-

teith did not come before the meeting with his revised bid reduced. Mr. Robinson stated he had seen Mr. Monteith about seven o'clock that evening and that the bid which he presented was absolutely the lowest bid and that it would be useless to delay action any longer as Mr. Monteith would not be present that evening; that he, the witness, had every reason to believe that the bid was for Mr. Robinson and that he was the contractor and that the bid was for \$125, more than the stone culvert, whereas, it should have been about \$218 less; that the pipe was bought from the Portland Stoneware Co. and he was satisfied that the price paid was $87\frac{1}{4}$ cents per foot.

Mr. Smith of the Building Committee testified in regard to the drain; said he thought Mr. Robinson was about \$250 lower than any other bidder. Mr. Robinson furnished and laid the drain pipe under Mr. Fiske's supervision; that he thought that the drain pipe cost less than the stone culvert. He went with Mr. Robinson when he bought the pipe in Boston where Mr. Fiske recommended them to buy it; he thought he paid \$1.25 a foot but he didn't know exactly what it cost. It was bought of the Portland Stoneware Co. He thought the pipe ought to have cost less than the stone culvert. He approved the bill the same as the others. He was sure Mr. Robinson bought the pipe himself. Monteith did some of the grading and filling on the lot.

Elmer B. Newhall testified that he figured first on the stone culvert and then on the tile pipe. His figure was higher on the stone culvert than on the tile pipe and he thought the stone culvert would cost more than the tile but did not know just how much more.

It appears from our inspection of the checks in the hands of the Town Treasurer that all the checks given on the drain contract to Monteith and Meister with the exception of one were endorsed over to Mr. Robinson, and it appears from an inspection of the bills made out in the name of Monteith and Meister, on account of said work, that said bills are apparently in the handwriting of Mr. Robinson.

In the opinion of your Committee, it was not fitting that a member of the Building Committee proposing to perform any

part of labor under the direction of the Building Committee should compete with others for any contract, or engage in the performance of any of the work. If any person chosen to serve upon this Committee had any intention of performing any considerable part of the work himself, he should, in the opinion of your Committee, have declined to serve, or at least made known to the voters before he accepted the position or entered upon the discharge of the duties of such Committee, that he intended to claim the privilege of performing some part of the work which it was the duty of the Committee to let out and superintend.

One member of the Building Committee has performed a very considerable amount of work and has been paid several hundred dollars, and his name appears upon the bills as approving said work done by himself.

Under the order to investigate the doings of the Building Committee, we feel in duty bound to report that statements were made before us under oath substantially as follows :

Mr. Caswell testified that B. F. Robinson told him that he was not working for his health or for nothing. There was a chance to get six or eight hundred dollars apiece from architects, also something from the builders, besides the heating, plumbing and furnishings; he also said he would divide up the commission that he was to get on the Pleasant Hill lot.

Mr. Cunningham testified, he overheard conversation between B. F. Robinson and Mr. Stokes in regard to the school houses, in which Mr. Stokes suggested Mr. Greenlay as a desirable contractor for building the school houses. Robinson asked Mr. Stokes if Mr. Greenlay would put up to get contract or job. Mr. Stokes said he did not know if Greelay would put or not; Robinson said, you can find out, can't you?

Greenlay came into our office and Stokes asked in my presence if he wanted to figure contract on School Buildings, and he replied, yes. Stokes said, Robinson is looking for money and asked if you would put up to get contract. Greenlay said, if I can get contract at high enough price, I will put up; that it did not make any difference to him if he got his price. Robinson asked me if I could get Fiske and Caswell to vote for him as

chairman of the Committee. I told him, I did not know but would ask them. I asked Robinson, how much he got out of the Felton School and he said, \$700 and he was going to get his share out of this contract; he was not in this for his health.

As regards the above, Robinson testifies as follows: To the question, did anyone ever offer you money to get the job of making plans?,—he answers, yes. Who was it? Said Robinson refused to answer.

Did you ever ask anyone to influence the Committee to vote for you for chairman? No. Did you ever state to anyone you were not in this for your health and that there would be money to be obtained from architects and the contractors? No. Did you ever receive any money by reason of your position on the Committee or for your influence as a Committee man? No. Did you ever request any person to see if Greenlay would put up money to secure contract? No. Did you ever say to anyone that you got \$700 out of the Felton School and that you were going to get your share out of this contract? No.

Your Investigating Committee has been greatly embarrassed in the examination of the plans and work by the action of the Building Committee and of the contractor building said buildings, by the refusal of said Building Committee to allow your Committee to take possession of the plans and papers and the refusal of the contractor to allow your Committee to inspect the inside of the buildings and the work going on therein, at the time when they desired so to do. It appears that the architects made six copies of plans and specifications.

It is true that by a letter received from the Chairman of the Building Committee on April 6th last, an offer was made by him to allow your Committee to go to said buildings for the purpose of examination and investigation of said buildings, and a statement was made therein that he would go there with the plans and specifications, but at that time all the hearings had been closed. Your Committee had made an appointment at a previous date to meet said Chairman at said buildings and examine the same together with the plans and specifications which he agreed to have there, but said Chairman failed to be

present at the time and place appointed and failed to have the plans and specifications there. Your Committee was there at the time and place appointed and endeavored to examine the inside of said buildings but admission was refused by the contractor who refused to recognize the authority of your Committee to examine said buildings. Without copies of all plans, specifications and contracts which your Committee could have for its own use and private examination at its convenience and in its own way, it was impossible for your Committee to make a satisfactory investigation of the whole matter.

Most respectfully submitted,

H. K. WHEELER,
CHARLES W. DEARBORN,
C. W. AMERIGE,

Investigation Committee.

FINAL REPORT OF Investigating Committee of the Doings of the Committee on New School Houses.

To the inhabitants of the Town of Saugus:

Inasmuch as no decided action has been taken by the Town, or by any of the officials of the Town, respecting the first and partial report of your committee and the matters therein brought to the attention of the inhabitants of the Town, your committee has felt that it would be inexpedient for it to incur further expense in making any more extended investigation into the doings of the Committee on New School Houses.

Your committee has therefore taken no new steps in the matter of investigation, feeling that the inhabitants of the Town by their silence and inaction concerning the first report of your committee showed a desire that the doings of the Committee on New School Houses should not be further investigated.

Your committee, however, with the knowledge that it had obtained, and which was presented to the Town in its first report in regard to the construction of the new high school building, felt that it would neglect a moral duty if it remained absolutely inactive, and the Selectmen were therefore requested to petition the Massachusetts District Police to inspect the High School building. This was done, and the report of the Inspectors of the District Police who examined the building is filed with the Town Records, and your committee now feel entirely relieved of all responsibility regarding the same.

The costs and expenses incurred by your Committee in the discharge of its duties amount to \$150.77, detailed statements of which are hereto annexed.

Report of Board of Selectmen.

To the Citizens of Saugus:

We have the honor to submit the following report:

Incidentals.

While there were no unusual expenditures charged to this appropriation the present year, nevertheless the amount appropriated was barely sufficient to meet the requirements. We deem it advisable, therefore, to call attention to the fact, that, owing to the rapidly increasing growth of the Town, the expense of conducting the affairs of this and other departments has increased to the extent that it would be unreasonable to expect an appropriation for a less amount to be adequate for the purpose. On the other hand it would be wise to increase the amount of the annual appropriation, for should anything of an unusual nature occur it would necessarily require a larger amount than has heretofore been provided for this purpose. This appropriation is to furnish means to pay sundry bills contracted by the several Departments of the town government not otherwise provided for, and, as but very few of such items are contracted directly by the Board of Selectmen, we would recommend that in the future this appropriation be called "The Contingent Appropriation" instead of the "Selectmen's Incidentals," which is very misleading. We would recommend, in any event, that at least a separate appropriation be made for the tax collector's compensation and similar expenditures instead of charging the same to the Selectmen's Incidentals, as is now the method.

Highways and Bridges.

Although this department started with \$1,363.77 in bills carried over from the previous year, and the appropriation was \$2,000.00 less than for several years past, nevertheless the department was conducted in such an economical manner that not only was this deficiency taken care of, but there was also an unexpended balance on hand at the end of the year. If any who are inclined to criticise the department for not having accomplished more work this year, will consider these facts we feel sure they will admit that as much has been done as could be reasonably expected under the circumstances.

Lincoln avenue from Clifondale square, to the Revere line, and Main street from Monument square to Vine street have been resurfaced; the bridge at Howlett's Mill entirely rebuilt, it having been declared unsafe, and many minor repairs have been made, all of which are shown in the detailed report of the expenditures of the Highway and Bridges Department.

We desire to acknowledge the faithfulness with which the Superintendent of Streets has conducted this department, and invite your attention to his recommendation this coming year.

Street Lighting.

We have 73 arc lamps at a cost of \$67 per lamp, and 116 incandescent lamps at a cost of \$16 per lamp, making an annual outlay amounting to \$6,747.00. We think the cost of street lighting can be kept down to a certain extent by substituting incandescent lamps in the place of arc lamps. There are, no doubt, a few places where an arc lamp can be taken out and three incandescent lamps put in its place, and the street not only be better lighted but a saving of \$19 per year made in each change. This will be attended to as soon as any new lights are to be located.

Considerable dissatisfaction was expressed in the early part of the year with the poor service rendered, but after taking the matter up with the Lynn Gas and Electric Co. your Board finally succeeded in getting the new system of enclosed arc lamps installed since which time the service has been very satisfactory.

Police Department.

This department still maintains its usual standard of efficiency. We are satisfied that if the citizens generally were better acquainted with the details of this department and the many difficulties with which it has to contend with, there would be much less criticism.

Public Buildings and Grounds.

The school-house at East Saugus has been newly shingled, and various repairs made to other buildings necessary to keep them in good condition. There have been several items charged to this appropriation this year, which have heretofore been paid from "Incidentals," but which we think should properly be charged to "Public Buildings and Grounds."

Gypsy and Brown Tail Moth.

The work in this department has been carried on very satisfactorily this year, and a marked improvement shown in the conditions over last year, particularly in the residential districts. In addition to the sum of \$1,733.54, appropriated by the Town, the State has expended in the Town of Saugus \$13,938.94, a much larger amount in proportion than in other contiguous towns or cities. We have every reason to expect a still larger amount will be expended by the State the coming year.

Fire Department.

This department has maintained its usual efficiency the past year and will compare favorably with any like department of its size and conditions. Full particulars of its operations will be found in the report of the Chief Engineer.

State Highway.

Agreeably to a petition presented to the State Highway Commission that they build and maintain as a State Highway that part of the highway from the Melrose line to Clifftondale Square

the Commission has started the work and have completed a small portion this year. It is hoped they will continue the work to completion or a greater part thereof the coming year, as this is of interest to all the citizens it is hoped they will attend any hearings that may be held regarding the same.

Appropriations.

We would respectfully recommend the following appropriations for the current year :

Highways and Bridges	\$5,000 00
Selectmen's Incidentals	5,000 00
Street Lighting	6,950 00
Insurance	690 00
Public Buildings and Grounds	1,000 00
Gypsy and Brown Tail Moths	1,733 54
Soldier's Relief	450 00

CHARLES F. CLARK,
HERBERT M. FORRISTALL,
CLARENCE W. FOX,

Selectmen.

Report of Chief of Police.

To the Honorable Board of Selectmen :

GENTLEMEN,—I herewith submit my eleventh annual report, showing the present condition of the Police Department, and reviewing briefly the duties performed during the year ending December 31st, 1906.

Chief of Police.

CHARLES O. THOMPSON.

Regular Officers.

Capt. Roland L. Mansfield, Frank W. Joy, J. Henry Williams.

Special Officers.

Peter A. Flaherty, Arthur B. Mansfield, Charles F. Clark, Edward P. Burnham, Thomas E. Berrett, Justin E. Mansfield, Charles E. Torrey, William M. Penney, James W. Rea, George W. Parker, John Brierly, Charles E. McKenney, Leon H. Worthley, Henry J. Townsend, Charles E. Davis, Christopher C. Merrithew, Harry Williams.

Arrests.

The whole number of arrests for 1906 was 182, of which 165 were males and 17 females.

The following are the Offences.

Assault, 11 ; assault and battery, 8 ; arrested for out of Town officers, 6 ; aiding prisoner to escape, 1 ; bathing without proper clothing, 1 ; breaking and entering and larceny, 13 ; breaking

glass in fire alarm box, 1; bowling on Lord's Day, 1; being present at a game, 4; drunkenness, 71; disorderly conduct, 4; default, 2; delinquent, 6; gaming on Lord's Day, 2; habitual truant, 1; incest, 1; keeping child from school, 6; keeping unlicensed dog, 5; lewd and lascivious, 6; non-support, 2; profane language, 3; search warrants served, 3; truancy, 4; trespassing, 6; threat, 1; violation of Town by-laws, 6; vagrant, 3; wayward child, 5.

Court Cases.

There were 291 criminal including continued cases tried in this court.

Disposed of as follows.

Appealed cases, 4; continued cases, 90; committed to Salem jail, 12; committed to State Board of Charity, 2; defaulted, 6; discharged, 15; filed, 66; fined and paid, 48; held for Grand Jury, 6; held for Superior Court, 4.

Miscellaneous Work.

Arrested for out of town officers, 6; complaints received and investigated, 629; committed to Danvers asylum, 3; dead bodies removed, 2; disturbance suppressed, 27; doors found open and secured, 70; dogs killed, 62; lights furnished for dangerous places, 23; lights found burning, 68; lost children restored, 12; runaway horses stopped, 5; stray teams put up, 6; windows found open, 27; responded to fire alarms, 32; calls for patrol wagon, 62.

Financial Statements.

Appropriation	\$4,250 00
---------------	---	---	---	---	---	---	---	------------

The sum of \$229.19 was drawn from this amount to pay bills of 1905 as the appropriation for that year was not sufficient to pay expenses.

EXPENDITURES.

Amount paid on bills of 1905	\$229 19

Wakefield Police	1 00
	<hr/>
	\$4,250 00

The total amount of fines paid during the year was \$318.

Recommendation.

I would recommend that the sum of \$4,250 be appropriated for police service for the year of 1907.

Conclusion.

I wish to say in closing my report that this department is entitled to much credit for the splendid record of the past year, and I wish to extend my thanks to the officers both regular and special for the faithful manner in which they have performed the duties intrusted to them.

I desire to thank the honorable Board of Selectmen for the support accorded me at all times. Also Judge William E. Ludden for his most courteous and valuable assistance.

Respectfully submitted,

CHARLES O. THOMPSON,

Chief of Police.

REPORT OF

Inspection of Plumbing

SAUGUS, MASS., Jan. 1, 1907.

Board of Health:

GENTLEMEN,—In accordance with the requirements of Chapter No. 103 of the Revised Laws of Massachusetts of the supervision of Plumbing. I herewith submit my second report, for the year ending December 31st, 1906. The number of inspections made during the year, together with the number of different inspections will be found in the table herewith annexed:

Total number of inspections	158
Permits issued	79
Permits refused	0
Cesspools inspected	79
Complaints of violation of plumbing ordinance	2
Complaints investigated	2
Violation of plumbing ordinance	1
Miscellaneous calls	24

Respectfully submitted,

THOMAS C. SUTHERST,

Plumbing Inspector.

Report of Board of Health.

The Board of Health respectfully submits its annual report for the year 1906.

The Board was organized as follows : George W. Gale, M. D., Chairman ; William F. Belcher, Secretary ; Benjamin F. Robinson, Health Officer.

Regular meetings of the Board are held at the Town Hall on the first Monday of each month at 8 o'clock P. M.

Complaints of various kinds were made to the Board, and all were investigated without delay, and where any nuisance was found to exist it was promptly ordered abated, and the order was complied with in every case.

We had very few cases of contagious diseases until October, when we had an epidemic of diphtheria which lasted for two months and necessitating the closing of one of the Clifondale Schools for a period of ten days, and the disease was finally stamped out.

The whole number of cases of contagious diseases reported were as follows : Scarlet fever, 2 ; typhoid fever, 2 ; measles, 8 ; diphtheria, 30 ; total, 42.

The attention of the citizens and physicians is called to the following State Law which the Board desires, for the purpose of securing the widest knowledge of the existing law relating to the notification of contagious diseases, to call particular attention to Sections 49 and 50, of Chapter 75 of the Revised Laws, as amended by Chapter 251 of the Acts of the Legislature of 1905. The amended sections read as follows :

SECTION 49. A householder who knows that a person in his family or house is sick of smallpox, diphtheria, scarlet fever or

any other infectious or contagious disease dangerous to the public health shall forthwith give notice thereof to the Board of Health of the city or town in which he dwells. Upon the death, recovery or removal of such person, the householder shall disinfect to the satisfaction of the Board such rooms of his house and articles therein as, in the opinion of the Board have been exposed to infection or contagion. Should one or both eyes of an infant become inflamed, swollen and red, and show an unnatural discharge at any time within two weeks after its birth, it shall be the duty of the nurse, relative or other attendant having charge of such infant to report in writing within six hours thereafter, to the Board of Health of the city or town in which the parents of the infant reside, the fact that such inflammation, swelling and redness of the eyes and unnatural discharge exist. On receipt of such report, or of notice of the same symptoms given by a physician as provided by the following section, the Board of Health shall take such immediate action as it may deem necessary in order that blindness may be prevented. Whoever violates the provisions of this section shall be punished by a fine of not more than one hundred dollars.

SECT. 50. If a physician knows that a person whom he is called to visit is infected with smallpox, diphtheria, scarlet fever or any other disease dangerous to the public health, or if one or both eyes of an infant whom or whose mother he is called to visit become inflamed, swollen and red, and show an unnatural discharge within two weeks after the birth of such infant, he shall immediately give notice thereof in writing over his own signature to the Selectmen or Board of Health of the town; and if he refuses or neglects to give such notice, he shall forfeit not less than fifty not more than two hundred dollars for each offence.

We would still call the attention of all the owners of real estate to the necessity of having their vaults and cesspools kept in a sanitary condition and cleaned out once a year at least as required by law. Many vaults and cesspools are used until they run out upon the ground, thereby creating a nuisance for themselves and their neighbors. We would also urge the necessity of

using an iron cover to all cesspools, the same being once done is done forever, while a wooden top has to be renewed every six or seven years besides the liability of a horse or wagon breaking through it. We would also urge upon the citizens a more thorough collection of ashes and swill, it being no more work to them to put it in a proper receptacle and have it taken away than to throw it out in the yard to rot and breed mosquitoes and flies, to say nothing of the improved condition of their premises. We find that once a household has the same removed they do not wish to go back to the old way.

GEORGE W. GALE, M. D., *Chairman.*

WILLIAM F. BELCHER, *Secretary.*

BENJAMIN F. ROBINSON, *Health Officer.*

Public Library Report.

The Trustees of the Public Library respectfully submit their nineteenth annual report for the year ending December 31, 1906.

The increase in the circulation during the past year has been encouraging as will be seen in reference to the Librarian's report.

Special attention is given to reading matter for children and young people.

In the year 1903 the number of borrowers of books was 679, in 1906 the number was 1,411.

Nothing has been done during the year to meet the urgent demand for more room and better facilities for carrying on the work of the library. A reading room is very much needed and a room for children. The reference portion of the library cannot be utilized to any great extent owing to the lack of a reading room, consequently the usefulness of the library is very much impaired. There are many valuable books on the shelves that would be used much more if there was a reading room in the library.

Books are piled high on the tops of the stacks which has made the stacks top heavy and one of them has had to be braced to keep it from falling. Magazines are stored in the attic of the Librarian, other books are stored in the attic of the Town Hall.

The pictures from the Library Art Club have been very fine and interesting, among them being pictures of scenes in China, Japan, Rome, Florence, Switzerland, and Sargent's pictures. The pictures, owing to the place of exhibition, the Court Room, are comparatively little noticed. A fine exhibition of Indian

implements was held in the Court Room, in October, which notwithstanding the rainy weather on that day was largely attended.

The library is under obligations to Congressman Roberts, Nathan M. Hawkes, John C. Labaree, Mrs. Fred C. Cheever, Miss Emma Thayer, Miss Emma Newhall and others for books and magazines. Mr. Labaree presented a black walnut book case which is much appreciated. Some gifts for the mineral cabinet were received.

The Library needs more room and we feel that it is our duty to ask the co-operation of the voters of the town to help us to obtain the same.

The estimated value of the books and fixtures is as follows:

Cabinet for minerals and shells	\$25 00
Contents of cabinet, minerals, shells, etc.	175 00
Glass case of stuffed birds	35 00
Cabinet desk	50 00
Delivery desk	50 00
Card cabinet	25 00
Card cabinet	10 00
Card case	10 00
Books, stacks and cases	300 00
Tables, chairs, stands, steps and bulletin board	35 00
Card cataloguing at 25c	2,000 00
Library books	8,000 00
Clock	4 00
Typewriter	50 00
Wilbur F. Gillette's Picture	25 00
Total	<hr/> \$10,794 00

We submit the financial statement for the year:

Amount of Appropriation	\$800 00
Dog tax	619 00
	<hr/> \$1,419 00

EXPENDITURES FOR 1906.

Librarian.

REPORT OF Engineers of Fire Department

The apparatus consists of three hose wagons, one hook and ladder truck, eight Underwriters' and four Babcock extinguishers, 4,000 feet of hose, 100 feet of garden hose, three plain brass and seven regulation play pipes, 11 extinguishers in Town buildings, four sets of double harness, 300 feet of ladder, 12 rubber coats, three jump nets, one line gun, one pull down hook with chain and rope attached, three crotch poles, eight lanterns, three long hooks, two axes, three bars, 26 spanners and 20 belts, 12 lighters, 14 fire hats, three wrenches, three wagon jacks and other small articles of use.

The Fire Department at the present time consists of 44 regular men and eight call men and superintendent of the fire alarm and three engineers :

C. A. BLAKELEY, *Chief.*

C. L. PUTNEY, *First Assistant.*

J. L. WEBER, *Second Assistant.*

Record of Alarms.

Total number of bell alarms, 32.

Total number of false alarms, 3.

Total number of still alarms, 11.

Total number of second alarms, 8.

Total miles run by all apparatus, 82.

Total feet of hose laid since January, 14,700.

Total feet of ladders used, 606.

Total gallons of chemicals used, 124.

Details of Alarms, for 1906.

January 1. Box 12, 11.30 A. M. Dwelling house owned by Mr. Osgood, occupied by A. Fiske; damage to building \$5.00; damage to contents \$31.50; covered by insurance.

January 28. Box 31, 2.40 A. M. Building owned by trustee William Sutton Lodge, occupied for lodge purposes, schoolroom and grocery store; damage to building \$4,800; damage to contents \$4,461; covered by insurance.

February 2. Box 12, 2.40 P. M. Dwelling owned and occupied by John Perkins; value of building \$3,000; damage to building \$150; insured.

February 3. Box 27, 3.40 P. M. Grass fire on Marshes.

March 24. Box 37, 6.55 A. M. Dwelling owned by Mrs. E. Coombs occupied by C. Pratt; value of building \$1,500; damage to building \$450; insured. Value of contents \$500; Damage to contents \$75; no insurance.

April 11. Box 21, 1.15 A. M. Dwelling on Mt. Vernon street, unoccupied, owned by F. G. Walker; damage \$500; insured. Damage to contents \$150.

April 11. Boxes 125, 123, 13 at 1.30 A. M. Dwelling on Putnam street owned and occupied by W. E. Crosby. Value of building \$3,000; value of contents \$1,500; total insurance \$3,900.

April 17. Box 124, 2 P. M. Dwelling owned and occupied by J. E. Higgins; value of building and contents \$1,800. Fully insured. Value of stable and contents \$400; Insurance paid \$75.

May 4 Box 14, 7.30 P. M. Automobile. Damage not known, owned by Dr. Lovell.

May 21. Box 13, 11 P. M. Barn owned by Butterfield heirs; loss \$1,500; Insured \$700.

May 23. Box 37, 7.35 A. M. Dwelling owned and occupied by Mrs. Knowler; value of building \$5,000; insurance \$2,800. Value of contents \$4,000; insurance on contents \$2,800; damage \$30.

May 27. Box 213, 3.30 A. M. Mill owned and occupied by H. B. Newhall; value of building \$48,000; insured for \$2,000; value of contents \$2,000; no insurance; total loss.

July 3. Box 23, 8.05 P. M. False alarm.

September 3. Box 25, 10.15 P. M. False alarm.

September 18. Box 25, 9.05 P. M. False alarm.

November 3. Boxes 12, 36 at 8.50 P. M. Dwelling under construction at Kenwood; total loss; no insurance.

December 3. Boxes 12, 13 at 12.45 A. M. Factory of Standard Extract Co. Value of building \$10,000; insurance paid \$8,000; value of contents \$17,000; insurance paid \$6,000.

December 4. Box 21, 9.10 P. M. Dwelling owned and occupied by A. B. Moses; value of building \$2,000; insurance paid \$800. Value of contents \$800; insurance paid \$495.

December 4. Box 27, 10.20 P. M. Schoolhouse owned and occupied by Town of Saugus. Value of building \$20,000; insurance on building \$14,000; insurance paid \$70. Value of contents \$900; no insurance; no damage.

December 16. Box 124, 8.35 A. M. Dwelling owned and occupied by A. E. Staples; value of building \$1,400; insurance \$1,400; no damage. Value of contents \$600; damage \$5; no insurance.

December 30. Box 21, 4.20 P. M. Dwelling owned by P. W. Amerige, occupied by M. C. Merrill; value of building \$3,000; insurance \$3,000; no damage. Value of contents \$700; no insurance; no damage.

We would recommend that the Town purchase horses for the fire department. We would also recommend the purchase of a chemical engine, which would greatly reduced water damage at fires, and in many cases would be of great value where there are no hydrants.

We would also recommend that the Board of Selectmen be instructed to request the Revere Water Board to place hydrants on Vine street, and on Main street, above the Methodist church.

We also recommend the purchase of 2,000 feet of hose, as our supply is very short, at the present time.

We would also recommend that a fire alarm box be placed on Denver street at the railroad crossing.

We would also recommend the sum of \$2,800 for running expenses of the department, and \$2,200 for firemen's salaries.

C. A. BLAKELEY, *Chief.*

C. L. PUTNEY, *First Asst.*

J. L. WEBER, *Second Asst.*

Report of Superintendent of Streets.

In submitting my annual report I beg leave to make the following suggestions. I would recommend that a pipe be laid on Lincoln avenue to take the water from Bristow street to the Town drain, also that something of the same kind be done to take care of the water from Cliftondale Square to the Revere line as it is very bad in the winter making it inconvenient for the people living on that street.

I would suggest that Main street, Saugus, be graded and be put in proper shape from Vine street to the residence of the late Martin Carnes. Also Walnut street, by Birch Brook, to the top of Hawkes hill, and a small strip on Water street, near the Wakefield line.

I would recommend that the gutters on Jefferson avenue, Lynnhurst, be paved the coming season and the avenue be graded so as to hold the water where it belongs as there is a large quantity that flows down that street.

Adams avenue having been accepted the past year without an appropriation is in need of a large amount of labor to make it passible in seasons of the year when the frost is coming out of the ground, and is in need of immediate attention.

The most of our streets are in fair condition in the center of the town. Lincoln avenue, from Lynn to Revere line, has had a large amount of work done on it the past season thereby making it a very nice thoroughfare; it will not need much in the way of repairs for some time to come.

Main street, Saugus, has been put in good repair from the Monument to Vine street the past season; let the good work go on as recommended.

There has been quite a large amount of crushed rock used the past season in a satisfactory manner and more could have been used to a good advantage, thereby showing that the time is soon to come when the town will need a crusher as we have plenty of material for one.

Maple street has been much improved the past season, having had a large catch basin built to carry off the surface water, and an eight-inch drain laid to Essex street, a distance of about 400 feet to connect with the town drain, thereby relieving that street of the water.

I recommend that a suitable house be built for the accommodation of the steam roller the coming season.

I thank all of the employes for their faithful and harmonious co-operation in the discharge of their duties.

ALONZO PENNEY,

Assessors of Saugus.

Report of Cemetery Commissioners.

GENTLEMEN,—Your Cemetery Commissioners most respectfully submit the following report of the work performed during the year ending December 31, 1906.

We met April 21 and organized as follows: H. H. Atherton, chairman; J. S. Meacom, clerk. We made a contract with Mr. Davis to again serve us as superintendent at a salary of \$550 said contract runs from May 1, 1906, to May 1, 1907. September 4, Mr. Davis was called before the School Committee and offered \$700 per year if he would leave the employ of the Cemetery Commissioners and take the janitorship of the new High School building. He came and notified us of the fact and we immediately got together and voted that in our opinion Mr. Davis as Superintendent of Cemetery was worth as much as Mr. Davis as janitor. (The paymaster in both cases being the same, namely the Town of Saugus.) We told him if he would remain with us after the expiration of our contract with him May 1, 1907, that we would meet their price, this he agreed to do, things at the cemetery have gone along smoothly this year, as we stated in our last year's report we are sadly in need of more land for burial purposes, and we would most respectfully ask you to give your most careful attention to an article we shall have in the March warrant on that subject.

We shall be obliged to ask you for the sum of \$2,600 to run the cemetery this year with, you gave us \$2,200 last year and after using the strictest economy we find we run over that amount by \$143.83 making the total amount spent \$2,343.83. You will see by this that we began our new year with \$143.83 spent on account of insufficient appropriation last year, and if you give us the \$2,600 we ask for we shall have then but \$2,456.17 to carry us through this year with.

We have purchased a new device for lowering bodies into the grave with, this does away with having four men stay near the grave to attend to the lowering of the body, as that is now done by the superintendent pressing a spring with his foot, by this device we save quite a sum in wages in a year. By referring to the Superintendent's report which is hereby made a part of this report you will see that we have turned into the Town treasury the sum total of \$2,101.80, of this amount the sum of \$493.78 was for the sale of lots and single graves leaving the net amount paid \$1,608.02, our assets of bills outstanding for the year amounts to \$345.03, added to the net amount is \$1,953.05, leaving our showing for this year as follows: Amount of original appropriation, \$2,200; amount overrun, \$143.83; total, \$2,343.83; cash turned in and assets, \$1,953.05; total net amount it has cost the Town to run the cemetery the past year, \$390.78. This we think is somewhat of an improvement over former years, much as we regret being obliged to overrun our appropriation.

We have several improvements in contemplation for the coming year which we hope you will allow us to do by giving us an appropriation such as we ask.

Respectfully submitted,

H. H. ATHERTON,
J. S. MEACOM,
R. P. WHITCHER,

Commissioners.

J. S. MEACOM,

Trustee.

Report of the Water Commissioners.

In conformity to the by-laws of the Town and for the information of its citizens the Board of Water Commissioners submits its annual report. The appropriation of \$5,000 made at the annual meeting in March for the maintenance and extension of our water system has been practically exhausted, and while we have attempted to make a wise and judicious expenditure of this sum to bring the best results to the largest number of applicants for the service yet we feel we are unable except by degrees to meet the expectations of all who would be water consumers if conditions were such that the service could be extended upon application.

Our policy, as has been that of our predecessors, is to extend the service when present or prospective conditions seem to warrant an outlay the interest on which would be sufficient at least to meet the requirement of law.

Most of the main thoroughfares at this time seem to be served and the problem which confronts us for a wise solution is how best to deal with the sections more remote from the centres of population, in sparsely settled territory where the desire for water is just as great and in many cases justifiable.

Under this caption the laying of 840 feet of pipe in Lawndale avenue we mention as an instance, which was done at a cost of \$1,664.15 and our observation is that in the light of events that have happened since we feel we should have the approval of all fair and thoughtful citizens. The Ballard street extension of 1,616 feet, done at a cost of \$2,018.04, has been under consideration by this and previous boards for many years and we feel sure that before long the wisdom of our action will become apparent and reflected in the sale of some of the choice building land which can be found on either side of a wide, well-graded and much travelled street in close proximity to the centre of East Saugus and near to the River Works of the General Electric Co.

These two features would seem to warrant a prediction that shortly there will begin the erection of buildings and the creation of other taxable property yielding a revenue to our treasury commensurate with the outlay.

Loud calls have also been made upon us in sections more isolated than those to which we have made special reference, but we have only been able to make conditional promises that their applications would receive such attention as the merit of each case seems to deserve.

By reference to the appraisal of value of our water works by the selectmen, a committee chosen for this and kindred purposes, we find that the sum of \$125,000 is their estimate of its worth, to which might be added such sums as have been expended the current year.

Our rebate from the City of Lynn as per existing contract will be \$6,548.31, which is an important factor in contributing to the support of our water plant.

We think that the citizens have reason for congratulation that this branch of our public business is in such excellent condition, from which might be drawn the inference that the water department is practically a self-supporting one, if not one of substantial profit to the town.

In this report of the board is also annexed that of the Superintendent and in its proper place in the Auditor's Report will also be found a record in detail of the disbursements of our appropriation.

For condition of loans made on account of extensions, etc., and now unpaid you are referred to the Treasurer's statement of the town debt.

Our chairman, on request, appeared before the finance committee and asked for an appropriation of \$1,000 for the financial year 1907.

Respectfully submitted,

GEO. C. PARCHER,
G. W. CASWELL,
H. H. ATHERTON,

Water Commissioners.

JOSEPH S. MEACOM,

Treasurer Sinking Fund.

Total cash and notes held in Sinking Fund January 30, 1907,
\$7,860.27.

The appropriation required for the year 1907 will be one
thousand dollars.

HERBERT B. NEWHALL,

HERBERT O. PRATT,

WILLIAM F. BELCHER,

Sinking Fund Commissioners.

Inspector of Animals.

SAUGUS, MASS., Jan. 1, 1907.

I have inspected at slaughter house two of beef cattle and eighty-six hogs and found them to be in good condition.

In making the annual inspection, I examined nine hundred and seventy-one head of cattle and two hundred and fifty-one hogs, all of which, upon physical examination appeared to be free from contagious disease.

For the year of nineteen hundred and six to nineteen hundred and, seven, ending in April, I have delivered twenty-eight licenses.

Respectfully,

A. W. SAWYER.

	<hr/> \$2,985 62
Total partially supported during year 75 ; 6 fully supported, 5 in Home and 1 in private house.	

In presenting the above report, the Overseers of the Poor, regret that the farm has not made a better showing, but they have no special excuses to make. The home, however, is well kept,—clean and bright, and the inmates, mostly elderly men, one of them in his 96th year, are comfortable and happy, and are just what such an institution should make them. Mr. and Mrs. John F. Burnham, the warden and matron, are well adapted for the management of such an institution, and could care for many more than there are in our home.

Mr. Burnham, having resigned the wardenship, your overseers will do their best to supply the places made vacant by him and his wife.

As your overseers have kept inside of the appropriation of last year, they recommend that the sum of \$3,000 be appropriated for the ensuing year.

Respectfully submitted,

JAMES A. HALLIDAY,
GEORGE H. AMES,
CHARLES W. BAILEY,

Overseers of Poor.

ANNUAL REPORT
OF THE
SCHOOL COMMITTEE
AND
Superintendent of Schools
OF THE
TOWN OF SAUGUS

FOR THE YEAR ENDING DECEMBER 31, 1906.

LYNN, MASS.
FRANK S. WHITTEN, PRINTER
1907.

SCHOOL COMMITTEE.

HENRY J. MILLS, <i>Chairman</i>	.	.	Term expires 1908
GEORGE M. AMERIGE, <i>Secretary</i>	.	.	Term expires 1907
FRANK P. BENNETT, JR.	.	.	Term expires 1909

The Board meets in its rooms in the Town Hall, the first Monday of each month at 7.30 P. M.

SUPERINTENDENT OF SCHOOLS.

CHARLES E. STEVENS.

The Superintendent may be found at his office in the Town Hall building, on Mondays and Thursdays, from 8.30 to 9 A. M., and Thursdays, from 4 to 4.30 P. M. Telephone at residence.

CALENDAR, 1907.

Winter term (12 weeks), January 2—March 22.

Spring terms (12 weeks), April 1—June 21.

Fall term (15 weeks), September 9—December 20.

School closes Wednesday noon of Thanksgiving week.

Winter term opens Monday, January 6, 1908.

The spring term of the high school will close one week later than is indicated above.

FINANCIAL STATEMENT.

RECEIPTS.

Town appropriation, March 1906	\$31,400 00	
From State, tuition	372 00	
From City of Boston	119 50	
	<u> </u>	\$31,891 50

EXPENDITURES.

Teacher's salaries	\$20,018 70	
Superintendent's salary	1,000 00

SPECIAL APPROPRIATION FOR REPAIRS.

March, 1906, was	\$500 00
Amount expended	500 00

(For detail expenditures see report of Auditor.)

Report of School Committee.

The school committee herewith submits its annual report. Following the custom of several years past, since the conduct of the classes themselves has been covered thoroughly in the report of superintendent of schools to this committee, this report is concerned only with matters of general policy. It is the manifest intention of the law that school committees shall not be compelled personally to be acquainted with all of the details of the management of the individual grades, but shall rather devote its attention to such questions as contracts for supplies, the care of school buildings, the choice of teachers and janitors, the financial arrangements, and shall act as a sort of court of appeal to which teachers, pupils, parents and the superintendent may come, when the larger questions arise which only a body in touch with the citizens can satisfactorily handle. For this reason, parents and citizens of the town are referred to the superintendent's report for information on the internal affairs of the schools, and to this report for information on those matters with which the committee is expected personally to deal.

The Election of Teachers.

We think no one will deny that the committee's most important function is that of choosing the teachers. The part which the teacher fills in the making of the life of a child is so important and oftentimes so determining a factor that more may depend upon it than upon any other matter occurring in that child's life. More is demanded, therefore, of a teacher than a mere education in the subjects he or she is to teach. To learning must be added character, personal adaptability and keen sympathies. If Puritanism and a Puritan clergy made Massachusetts the dominant

factor in all the affairs of this country prior to the last half century, it is equally certain that since the Puritan period it is the high quality of the public schools of Massachusetts which has maintained the citizens of that state as leaders in affairs. And this means that the school teacher of Massachusetts has been an exceedingly strong influence in the making of all of which Massachusetts is proudest.

An Increase of Pay for Teachers.

With this as their firm belief your committee have sought to make such selections of teachers as should make the schools of this town rank well among those of the entire state. They believe that on the whole they have succeeded in so doing. The fact that graduates of our schools have earned in the higher institutions to which they have gone, like, for example, the normal schools and colleges, records for scholarship and character of which no one need be ashamed, sustains the committee's belief. The committee feel, however, that the time has come when a very frank statement of some of the difficulties with which they are confronted should be made to the tax payers and the parents alike. No town official ought to hesitate to take the whole body of citizens into his confidence as to the conduct of his department, and this committee are extremely anxious that their acts shall be discussed and criticised by all of the people of Saugus with entire freedom. The committee find themselves face to face with this situation. Each succeeding year, they have asked for a larger appropriation for their department than for any previous year. Largely upon their recommendation the town has recently increased its indebtedness \$75,000 for new school buildings. This very year the committee feels obliged, however, to ask for an increase of several thousand dollars over the amount which it had to expend during 1906. The Town has granted every request for money which we have made, and has shown a disposition at all times to permit this department an entirely free hand. It is believed, therefore, that the committee are not taking advantage of this generosity of the citizens when they ask the increase of this year for quite another purpose than for that of maintaining all of the existing schools and for the

accommodation of such increases in numbers of pupils as the growth of the town brings about. The committee wishes to state that a considerable amount of the additional money asked for will, if granted, be used for increasing the salary of practically every teacher in the town's employ.

A Poorly Paid Profession.

As has been stated above, we desire to give a thoroughly frank statement of the reasons for this action of ours. They are really two in number. In the first place the teaching profession is entitled to larger pay than it receives. The average employee who does equally capable work in any commercial establishment receives better wages. The pay of a teacher in our public schools, unless she be the principal of the building or in charge of a special department in High School, is only \$450 per year or less than \$9.00 per week. The average pay for the same amount of work in an office can hardly be less than \$500 per year. As an actual fact, many pupils of our own schools who had an ambition to become teachers and because of their mental equipment would have succeeded admirably as such, have felt obliged to give up this ambition because the chance to earn suitable compensation was so much brighter in other lines. If it were not for the long vacations and the fascination of the work when one becomes accustomed to it, probably many who are now teaching would leave the profession entirely. Partly because we want to attract the brightest graduates of our own schools to the work of teaching in their home town, and partly because it is only fair that teachers should get such remuneration as will repay them for the expenses of special training at normal school or college which their work requires, and which employment in the mercantile establishment does not require, we urge upon the Town such an appropriation as will permit us to advance the salaries of all teachers to at least \$500.

Competition with other Committees.

As the second reason for this increase it is only necessary to call attention to the location of the town of Saugus. Although the poorest town in this end of the metropolitan district, if not

the poorest in the entire district, it is compelled to compete with all the metropolitan cities and towns for teachers. The city of Lynn, the town of Revere, the city of Malden, the city of Melrose and the town of Wakefield are our nearest neighbors. Every single one of them pays from \$50 to \$200 more per year for a teacher than do we. Every single year these places take away from us several promising teachers, and when we look elsewhere for candidates to fill their places we are compelled to find teachers whom these other cities and towns have not discovered, or to take those whom they have not regarded as satisfactory. It is only by searching far and wide that the kind of a teacher with whom we can be satisfied can be obtained, and if her success with us is at all apparent it is only a short time before she is engaged at better pay elsewhere and we have to hunt again. Now it is entirely true that even with the advance which we purpose to make, the remuneration which we can offer a teacher will be less than that which she can obtain in neighboring communities. We cannot hope to compete successfully with the cities or wealthier towns. But we have found that oftentimes the attractiveness of the work in a town like ours makes up somewhat for smallness of the pay and that many teachers could have been kept here if it had been possible to offer them even as little as \$50 a year more. It is our desire to be able to do this and is also our hope that with a minimum wage of \$500 we can compete on at least equal terms with any town in Essex County for new teachers and can hold many of those whom we now have. We therefore heartily recommend that a sufficient additional appropriation over that which we received last year for teachers be given us for this purpose.

Purchases of Supplies.

The wise policy of the town which directs that all orders of supplies and all contracts for work amounting to more than \$100 shall be awarded to the lowest bidder is followed generally in this department. The new furnaces for the East Saugus school, the repairs upon the lavatories at the Roby School and much other work have been contracted for in this way. The only

serious exception to this rule occurred when the committee found it necessary to put an entire set of new tubes in the boilers at the Roby School and gave the order to the Cunningham Iron Works of South Boston because the boilers themselves were bought from that concern, and it seemed likely that better results could be obtained from permitting the makers of the boilers to put them in perfect order.

The purchases of coal were made after competition between several dealers and the contract was awarded for the school coal and for that of the Town Hall for the following prices :

George's Creek Coal	\$4 05 per ton
Lackawanna Broken Coal	5 86 " "
Lackawanna Egg Coal	6 00 " "
Lackawanna Stove and Nut Coal	6 12 " "

The successful bidder was the Lynn Coal Co. and the committee were careful to obtain from them not only a contract properly prepared but a bond of sufficient size that the contract should be fulfilled as to quality as well as quantity. It is believed that the price herein named is as low as could have been obtained.

In General.

A number of smaller matters might well be called to the attention of the town at this time without a lengthy discussion here. The committee desire the fullest consideration and discussion of their work by all citizens at all times. They are especially anxious that any neglect on the part of any employee of their department shall be called to their attention. The work of the janitors has on the whole been well rendered. The comfort of the pupils has, we think, so far as proper heating and ventilating of the buildings has to do with it, been at all times assured. The selection of a janitor for the new high school building proved not an easy task because this is by long odds the best position of the kind which the committee has at its disposal. With the desire to be fair to the large number of applicants the committee arranged with the Massachusetts Civil Service

Commission for a competitive examination and it was because the present janitor obtained the highest mark in that test, a mark so high in fact that it was but little below 100 per cent., that he was elected. The condition of some of the district schools is also a matter which calls for some attention at different times, but the committee believe that the quality of instruction given in them and the attention paid to the comfort and convenience of the pupils are satisfactory to those most directly concerned. North Saugus now has two teachers and the growth of that end of the Town warrants us in hoping that some day the town may be warranted in building a new building there with all modern conveniences. At Oaklandvale, the selectmen at the suggestion of this committee, have arranged for a well, in order that a convenient and permanent water supply for the pupils may be available.

Respectfully submitted,

HENRY J. MILLS,
GEORGE M. AMERIGE,
FRANK P. BENNETT, JR.

We estimate that we shall require for the year 1907 as follows :

Teachers and Superintendent	.	.	\$23,000
Janitors	.	.	3,500
Supplies	.	.	3,000
Fuel	.	.	3,100
Incidentals	.	.	1,400
			<hr/>
			\$34,000

Report of Superintendent of Schools.

To the School Committee:

GENTLEMEN,—I have the honor to submit herewith my thirteenth annual report.

Perhaps the most important event of the year is the completion and occupancy of two new school-houses. This increase in school accommodations has afforded relief where it was greatly needed, and has made it possible to effect several desirable changes in organization. The opening of the new high school building and the removal of the high school from the Roby has made it easy to arrange the schools at Saugus Center in eight rooms; one grade in a room. A partition was placed through the center of the large room formerly occupied by the high school making it into two good class rooms of the usual size. This was possible because the arrangement of the heating and ventilating ducts was planned with this change in view. Thus the Roby becomes an eight-room grade school building.

As there was no room for the ninth grade in the Roby it became necessary to have it occupy one room in the old building or assign to its use one of the vacant rooms in the new high school. It was finally decided that the most economical plan would be to make the transfer to the new building, and place the ninth grade from East Saugus in the same room.

The new high school building has eight class rooms, a chemical and a physical laboratory, and an assembly hall. The seating capacity is sufficient to accommodate the school for several years, if its growth is no greater than it has been recently. At present there are about 180 pupils in the building, including 48 in grade nine.

As there are in the several schools of the town about 90 pupils in grade nine and more than 100 in grade eight it is probable that the classes to enter the high school for a few years will be larger than they have been.

A new four-room schoolhouse on Lincoln avenue a little east of Morton avenue was occupied for the first time in September. The great need of this building was to relieve East Saugus which has been overcrowded for some time. But the building is located too far west to be within easy reach of the East Saugus pupils. For this reason it was with considerable difficulty that the pupils of this section were accommodated this fall. The ninth grade was transferred to the High School and pupils of the first five grades living on Ballard street or west of it were transferred to the new building and two schools were opened there. By this plan we have four schools at East Saugus with two grades in each room. Three of these schools have been very large—too large for the best work. Probably it will be necessary to open another school in the new building soon made up of grades, five and six. But the new school is so far to one side that it cannot easily afford further relief to this section. Evidently additional accommodations must be provided at East Saugus in the near future.

The membership of the Cliftdale Schools has not increased this year. When the fall term opened there was no overcrowding except in one room at the Felton. This need was met by the employment of an assistant for the principal with understanding that she work chiefly in grade eight—the overcrowded room.

At North Saugus there has been a marked increase in the school population, a part of the year the membership of the school being more than fifty. Two teachers became necessary and two have been employed. The assistant uses the upper room and works with the younger pupils, while the regular teacher has cared for the older classes in the room below. If the present large number of pupils continues the upper room should be furnished as a regular class room and two separate schools organized.

The Oaklandvale school is small and several pupils from this section are attending the schools at Saugus Center at their own expense for transportation. In the interest of economy as well as education it would be well to close this school and have all the pupils come to the Roby, transportation being furnished by the town. This arrangement would give the children of this section better school privileges at greatly reduced cost.

Teachers.

At present forty regular teachers are employed. Of these, six are in the High School, eight at the Roby, six at East Saugus including the new school, sixteen at Clifftondale and four in the outside schools. Seven of these are college graduates, twenty are normal school graduates, and six others have attended normal school but did not complete the course.

During the year ten teachers have resigned. Five left to accept a larger salary elsewhere. To make good these losses and to provide for increased enrolment, thirteen teachers have been elected. The following is the complete list of changes :

WITHDRAWALS	SCHOOL	ELECTIONS
Alice J. Potter	Roby	Alice M. Homan
Mary E. Greene	East Saugus	
Pauline R. Peckham	Roby

Lilla G. Parker	East Saugus	Roby
Ella F. Robinson	East Saugus	New School

Memorial Day.

It is the law of the State that, "In all the public schools the last regular session, or a portion thereof, prior to the thirtieth day of May, known as Memorial Day, shall be devoted to patriotic exercises." This law was observed in all our schools this year as for many years and with great pleasure.

It is also the law of the State that every school-house shall be furnished with a flag not less than four feet in length and "suitable apparatus whereby such flag may be displayed on the school-house building or grounds every school day when the weather permits and on the inside of the school-house on other days." In general this law has also been observed. There has never been a flag pole on the Roby building but there is one on the school-house near it. Occasionally janitors have allowed the halyards to break before putting in new ones. Then it becomes necessary to lower the pole in order to replace the ropes,—in some cases a difficult and expensive operation. Repairs of this kind are not made promptly always, and this means that during the interval the flag cannot be displayed.

The schools are indebted to the members of the G. A. R. for beautiful flags,—one for each schoolroom—which were formally presented last May. These flags are the proper size for inside display and for use in giving the flag salute by the pupils.

Sewing and Sloyd.

In many of the cities and towns of this state sewing holds a secure place in the curriculum of the public schools. To any one who has seen class work in sewing no argument is necessary to prove its practical value and its great interest to the girls. I am in favor of introducing sewing as a part of regular school work in the upper Grammar Grades. A course of one hour a week for two or three years could be offered without great

expense. If the girls furnished their own material, as is customary, the annual outlay need not exceed \$200.

Some form of manual training for the boys is quite as necessary and should be provided. A room can be equipped with benches and all the tools necessary for accommodating a class of twenty for about \$400. One such room might serve the whole town, for classes could go to it once a week from the several schools to take the lessons. If the lessons were offered to boys of as many as three grades, the annual expenses for an instructor would be about \$600.

Fire Drills.

Some attempt has been made to give fire drills in the larger school buildings but not with complete satisfaction. There is no way of sounding the fire alarm except by using a hand bell or the bells of the building. This is bungling and inadequate. I would suggest that each building be equipped with a gong of such size as to be heard easily in all parts of the building and to be used exclusively for fire drill purposes.

Public School Savings Bank.

Allow me to call your attention to the importance of encouraging pupils to save their money. This is being done in many places by the introduction of school savings bank or the stamp savings system. Upon inquiry I find that plans of this kind meet with general favor on the part of teachers, pupils and parents wherever they have been adopted. If some plan of this kind commends itself to you, I should be glad to see it tried in our schools.

A large number of the children have spending money, but it is often spent in a way to bring no benefit to the spender. Sometimes it is used in a way to produce positive physical injury. If a plan could be introduced that would cause our children to open bank accounts and begin to save systematically, I am sure the teachers would be glad to assume the extra work involved.

Music.

The report of the special teacher of music is herewith submitted :

Mr. C. E. Stevens, Superintendent of Schools :

DEAR SIR,—Owing to the fact that no radical changes are attempted in music, the report from year to year must necessarily be along similar lines.

During the past two years more individual work has been introduced and the results are most encouraging. The child can read much more rapidly and accurately. The method has given confidence to pupils,—has taught self-reliance, necessitating dependence upon one's knowledge and placing personal difficulties where the teacher can give direct help.

Work has been done in tone perception. This work demands close concentration of mind, strengthens the memory and trains the ear. A few minutes devoted to this drill, during each lesson, is of great value to pupils.

Music is the subject that sinks deeper far than all others, into the heart of the child, moulding it as nothing else can. It is an aid to discipline, producing harmony of thought and action, and is a means of giving courage and inspiration. So true is this, that if music were eliminated from our schools the efficiency of all school work would greatly suffer.

In closing, I wish to express my thanks to all for their support and co-operation.

Respectfully submitted,

HELEN M. PAGE.

Drawing.

This department easily maintains the high standard of recent years. In view of the fact that we allow but 75 minutes a week to this subject, the results being obtained are highly creditable. We give place here to the report of the special teacher of Drawing.

Mr. C. E. Stevens, Superintendent of Schools:

DEAR SIR,—Throughout Massachusetts, for the past two years, there has been a gradual tendency in the courses of drawing instruction toward more constructive work. This has been more noticeable and carried out in a larger measure in cities and towns where the supervision of both the drawing and manual training have been under one and the same head. In towns where no distinct manual training course was provided, this change has manifested itself under the heads of Constructive Drawing and Design.

In preparing our course of study for this year I felt that we too needed more of this constructive work and knew that our course was not accomplishing what it should. Many of our pupils were woefully ignorant of terms constantly used in constructive work and of great value in one's general education. The experimental change which we made in our course has proved most successful. In the sixth, seventh, eighth, and ninth grades certain constructive terms are taught, the elements of a working drawing, the use and value of a blue print, and the association of familiar objects with type solids which they approximate in form. Both freehand and instrumental work are required. We believe this to be another wise step toward making our course a vital and progressive one.

Conditions for developing the work are more favorable than they have ever been since I have directed the work in Saugus. The most congested districts have been relieved by opening the new schools. By the present program each room receives a visit at least once in three weeks. The ninth grades receive lessons more often than the other grades as we believe it well that these pupils should have the greatest possible advantage since some of them leave school at the end of this year.

Since we have no kindergarten system many of our primary children are weaker in the use of their hands than in schools where the system exists. I have found it advisable and beneficial to introduce some simple paper folding, freehand cutting, and weaving, associated with the work in drawing. Though we have not gone to extremes in this work we can see that it has

benefited our writing, drawing and the general development of the children.

I think we may congratulate ourselves on having procured a group of such capable teachers to fill vacancies caused by recent resignations. May I thank all who have in any way aided my work and look for a continuation of their hearty support.

Respectfully submitted,

C. EDWARD NEWELL.

High School.

With the occupancy of the new building in September, it is believed that this school enters upon a new era of growth and prosperity. Already there is in evidence increased enthusiasm as well as increased enrolment, and there can be no doubt that the growth in numbers which has been so marked in the lower grades is about to appear in the High School. The entering class in the future should not be less than sixty and may be more. If the courses to be offered could be increased by the addition of stenography and typewriting, there can be no doubt that many pupils now leaving town would remain longer in the school. Beyond the initial expense for the installment of an equipment, the added annual expense would be very little except for the salary of an instructor. Your attention is called to the report of the Principal.

Mr. C. E. Stevens, Superintendent of Schools:

DEAR SIR,—I herewith submit to you my fifth annual report of Saugus High School.

Enrollment	139
Average membership for the year	117.33
Percentage of attendance	94
Present membership	134

The membership of the Saugus High School for the past year has been the highest in the history of the school. The percentage of attendance has again increased having this year a gain of one-half per cent.

Nevertheless each scholar has lost on an average over two weeks of school work; and, since about one-half of the scholars are seldom or never absent, that means that the other half loses on an average over four weeks of school work each year. When we consider the injury to pupil, class, and school of such irregularity in attendance, it is surprising that some parents will permit so many absences on flimsy excuses or with no excuse whatever.

Much dissatisfaction is caused by the fact that the no-school signal can be heard only in the immediate vicinity of the fire alarm bells. Often scholars who are very faithful in attendance come long distances to school after the bell has rung. Besides, I fear the non-faithful sometimes remain at home on stormy days in the belief that the bell may have rung and they didn't hear it.

If no other solution to the problem presents itself, a telephone at the High School would be a great help not only on such occasions but at many other times also.

Again, High School pupils might often attend school when the weather is not suitable for younger pupils to be out. For this reason I would suggest a second signal for the High School only.

As we said last year there has been nothing abnormal or startling to report in our regular work. There has been no change in the course of study, no change in the corps of teachers. The teachers have worked together faithfully and effectively, and the scholars have cheerfully adopted their every suggestion for the good of the school. The scholars too have as a whole worked hard and faithfully. We try to impress upon them that the good citizen is he who does his share in the world's work; and that, instead of being a necessary evil, work and its successful accomplishment is a source of happiness and contentment. That we are turning out workers and not drones is shown by the fact that graduates from our school were admitted this fall to Boston University, Harvard, Tufts and Williams. One is studying art, three are studying music, one elocution; some are in business college and others are profitably employed at home or in good business positions.

The question is often brought home to me,—Are we doing as much for the latter as for the rest? That we are doing our full duty to those who attend college is shown by the fact that our graduates are able to pass the Harvard examinations and that our school is approved by the College Entrance Certificate Board.

The constantly increasing requirements of the colleges necessarily crowd out the “three R’s” from our classical courses, but should we not give a course in which not only more attention can be given to these subjects but in which short-hand, type-writing, and business methods and correspondence may find a place? I believe the results would fully warrant the increased expense which, after installation, would be not more than \$1,000 per year.

My attention has often been called to the fact that many of our pupils read little outside of their school books and have little knowledge of current events. One can not be a good citizen unless he knows what is going on about him and exercises his judgment of men and affairs. It is to be regretted that no room in our new building was designed for a library and reading room. But I believe it would be a good investment if some of the best papers and magazines could be placed in each room and regular periods be devoted to their study.

Following the precedent established by former classes of the High School the class of 1906 presented the school with a beautiful gift, the best of Longfellow, which was a welcome addition to the decorations of the school building.

Our thanks are due also to the ladies of the Relief Corps who have presented the school with a beautiful flag, a most appropriate and acceptable gift.

At the beginning of the fall term we moved into our new building which we find more commodious and better suited in many ways for a High School than was our old building. It is to be regretted however that the laboratories were not ready for use. Our physics and chemistry classes have suffered somewhat thereby but we hope to more than make up the loss before the end of the school year.

Financial Report.

Amount of money on hand Jan. 1, 1906	.	.	\$16 10
Received from Bond prize contest,	.	.	39 45
Received from sale of recitation programs	.	.	6 55
			<hr/>
			\$62 10
Paid for printing	.	.	\$6 50
Paid for elocution teacher	.	.	25 00
Paid for recitation programs	.	.	6 00
			<hr/>
			\$37 50
			<hr/>
Balance on hand Jan. 1, 1907	.	.	\$24 60

In conclusion, I wish again to thank you and the gentlemen of the committee for your kind and helpful interest throughout the year.

Respectfully submitted,

LELAND A. ROSS.

Sight and Hearing Tests.

Two sections of Chapter 502, acts of 1906 reads as follows :

SECTION 5. The school committee of every city and town shall cause every child in the public schools to be separately and carefully tested and examined at least once in every school year to ascertain whether he is suffering from defective sight or hearing or from any other disability or defect tending to prevent his receiving the full benefit of his school work, or requiring a modification of the school work, in order to prevent injury to the child or to secure the best educational results. The tests of sight and hearing shall be made by teachers. The committee shall cause notice of any defect or disability requiring treatment to be sent to the parent or guardian of the child, and shall require a physical record of each child to be kept in such form as the state board of education shall prescribe.

SECTION 6. The state board of health shall prescribe the directions for test of sight and hearing and the state board of

education shall, after consultation with the state board of health, prescribe and furnish to school committees suitable rules of instruction, test-cards, blanks, record books and other useful appliances for carrying out the purposes of this act, and shall provide for pupils in the normal schools instruction and practice in the best methods of testing the sight and hearing of children. The state board of education may expend during the year nineteen hundred and six a sum not greater than fifteen hundred dollars, and annually thereafter a sum not greater than five hundred dollars for the purpose of supplying the material required by this act.

The material for these tests was received from the state officials about the first of December and the teachers began at once the work required of them. The examinations were completed before the close of the term.

It was discovered that twenty per cent. of the pupils have imperfect eyesight while at least five per cent. have serious difficulty with the eyes. More than four per cent. of the scholars wear glasses but these were not included in the examinations as it was assumed that their eyes had already received attention. Evidently, many not now using eye-glasses ought to have them and parents who have been advised in this matter are urged to take action without delay.

About ten per cent. are defective in hearing in at least one ear, but not more than one-fourth of these are seriously defective. Doubtless in most cases the trouble may be entirely removed if competent medical advice is secured at once.

A summary of the record of sight and hearing tests is given in the last pages of this report.

School Physicians.

SECTION 1. Chapter 502, Acts of 1906 provides that "the school committee of every city and town in the Commonwealth shall appoint one or more school physicians," but by the provisions of section seven of this same act the committee is not permitted to incur any expense for this purpose beyond the amount

appropriated by the town. There being no appropriation, there can be no school physicians unless they are willing to serve without pay. I am of the opinion that a small appropriation for this purpose should be made by the town annually.

The experiences of the year give this subject peculiar interest. School hygiene in general and contagious diseases in particular should be given most careful study. Teachers are not specialists in this line. They often feel the need and should have the assistance of competent medical advice duly authorized.

Greatly to the regret of all our schools at Cliftondale have been disturbed again this fall by an outbreak of diphtheria. The experiences of 1889 were nearly duplicated as is seen by the following quotation from the school report of that year :

“Early in the winter of 1889 diphtheria prevailed in Cliftondale. There was a local panic and the schools were closed one week. Dr. Abbott of the State Board of Health was invited to come out from Boston, and he made a careful examination of the school-houses, also of the houses where the disease was or had been. The school-houses were thoroughly fumigated and cleansed according to his suggestions. We have made careful inspection of the cases, and feel confident on the theory of Dr. Abbott, that not a single case of diphtheria has originated within the schools.”

Having in mind such conditions as these as well as all matters pertaining to the physical welfare of the pupils, I am in favor of school physicians. The health of the pupils and the teachers should be afforded every possible protection.

A Closing Word.

I cannot close this report without urging an increase in the teacher's salaries. This is the most important consideration to come before you at this time. If there can be money this year for only one thing that we did not have last year let it be \$1,000 to increase teachers' salaries. If the present standard of the schools is to be maintained, it must come. At present salaries, it is with great difficulty that good teachers can be secured, but if such come to us they do not stay more than one or two years.

Notwithstanding these conditions much good work is being done in our schools, but the best is not yet in evidence. We can never be satisfied while there is so much ahead of us to achieve. We have not yet learned how to attend to the physical and moral development of the children in the best way. These problems are being studied by able men everywhere and it is to be hoped that wiser methods will soon be made known to us.

In conclusion, I desire to express my deep appreciation of the confidence imposed in me by entrusting me so many years with the administration of the schools of your care.

Respectfully submitted,

CHARLES E. STEVENS,

Superintendent.
